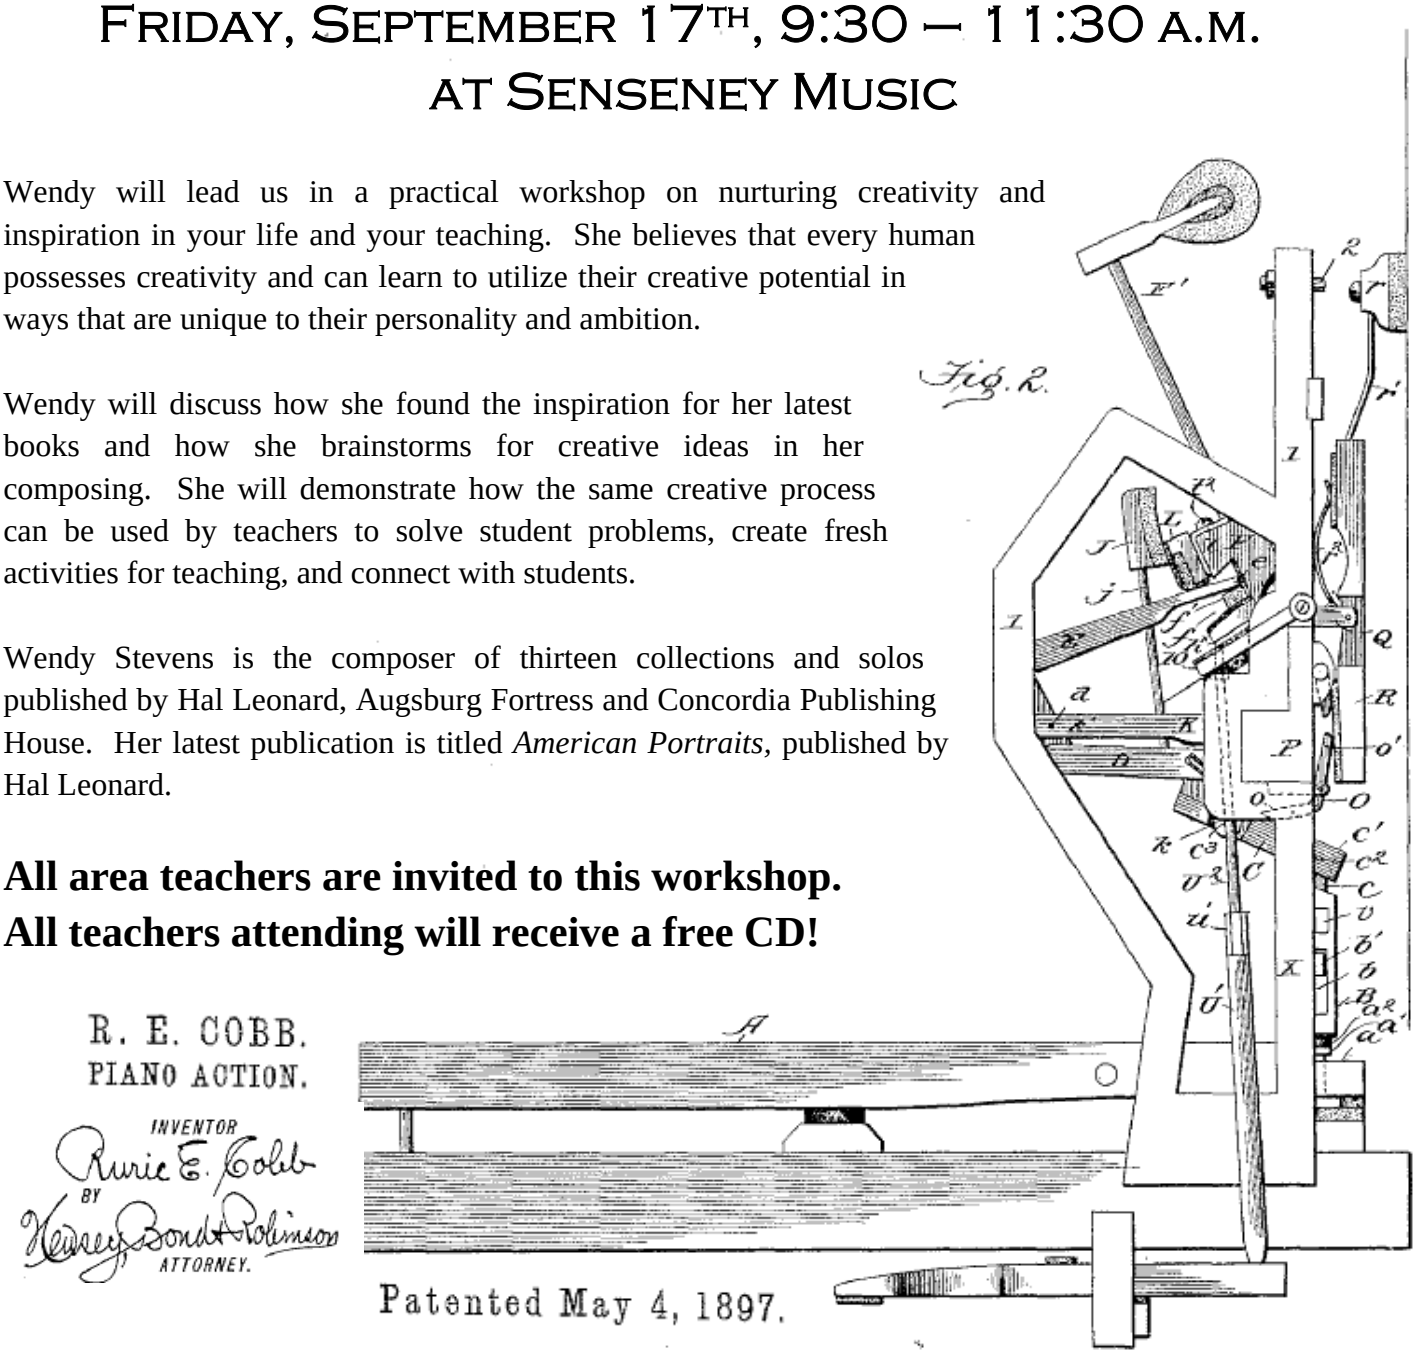
Wendy will lead us in a practical workshop on nurturing creativity and inspiration in your life and your teaching. She believes that every human possesses creativity and can learn to utilize their creative potential in ways that are unique to their personality and ambition.

Wendy will discuss how she found the inspiration for her latest books and how she brainstorms for creative ideas in her composing. She will demonstrate how the same creative process can be used by teachers to solve student problems, create fresh activities for teaching, and connect with students.

Wendy Stevens is the composer of thirteen collections and solos published by Hal Leonard, Augsburg Fortress and Concordia Publishing House. Her latest publication is titled *American Portraits*, published by Hal Leonard.


All area teachers are invited to this workshop.
All teachers attending will receive a free CD!
