STUDENT SOLUTIONS CATALOG

Piano music to solve piano student learning challenges

HELPFUL NOTES

Clickable Images

Each cover image is hyperlinked. That means that you can click on any image to go directly to the music product.

Clickable Links

At the end, there is an alphabetical index of all music mentioned with links to each of the pieces. This will help in case you print this catalog and cannot click on the image for some reason.

Four Sections

We've included four sections in this catalog:

1. Student Problems and Solutions
2. Rhythm Solutions
3. Music Categories and Special Series
4. Games, Recital Templates, and Brochures

Teaching Tips are Just Suggestions

We've included a number of helpful tips in teaching certain concepts. But as always, these are just suggestions you can try. There are many more wonderful ones out there! We just couldn't include them all.

Do You Have a Suggestion?

We'd love to hear it.

Please add your suggestion here so we can consider it and keep all suggestions in one place:

ComposeCreate.com/catalog-suggestions

TABLE OF CONTENTS

SECTION 1: Student Problems and Solutions

Easier Than It Sounds.....	6-7
Seconds.....	8
Thirds.....	9-10
Fourths.....	11-12
Fifths.....	13-14
Finger Dexterity.....	15-16
Bass Clef Reading.....	17

Music Flashcards, Games, Stickers.....	134
Editable Recital Templates.....	135-136

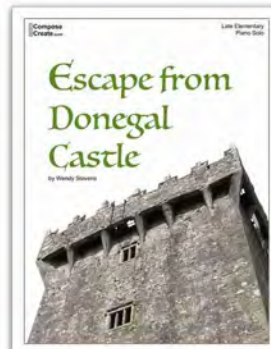

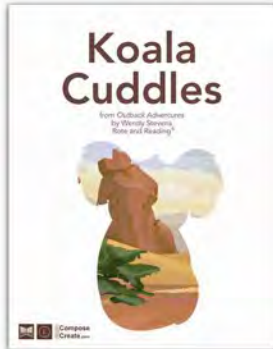

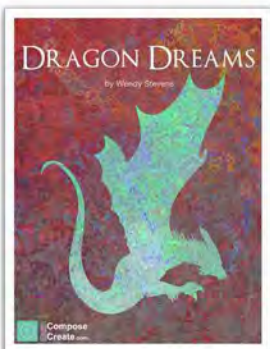

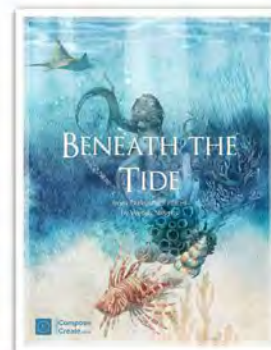

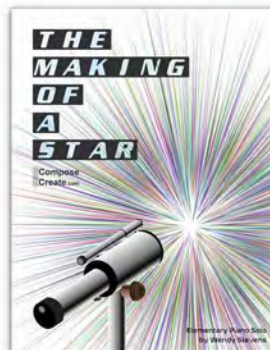

Section One

STUDENT PROBLEMS and SOLUTIONS

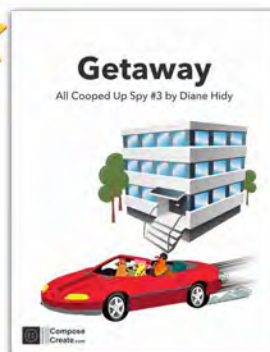

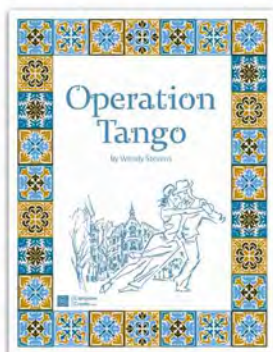

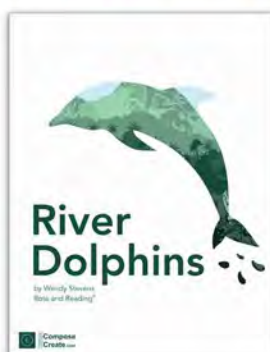

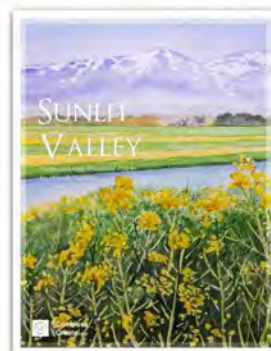

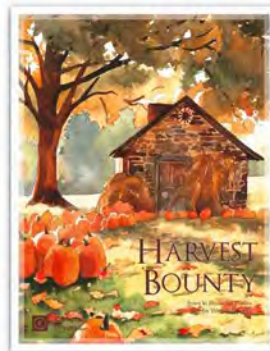

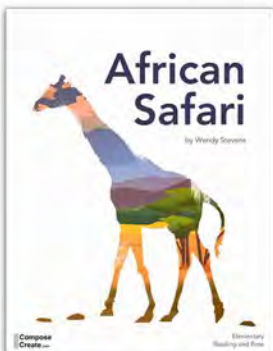

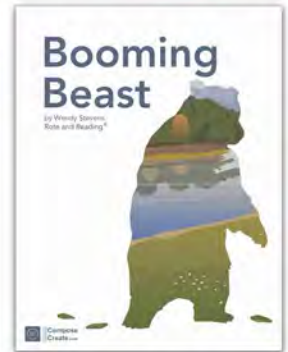

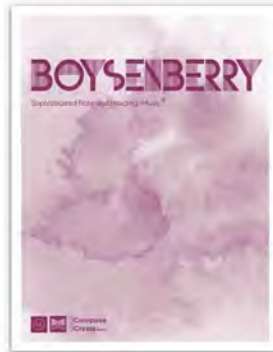

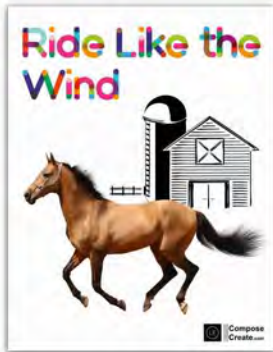

EASIER THAN IT SOUNDS

*You are
braver than you believe,
stronger than you seem,
and smarter than you think.*
~ Christopher Robin to Winnie-the-Pooh

EASIER THAN IT SOUNDS *continued*

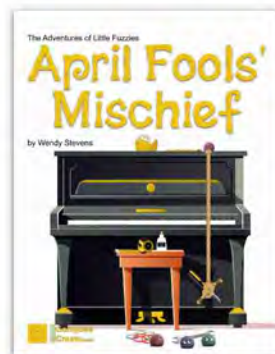

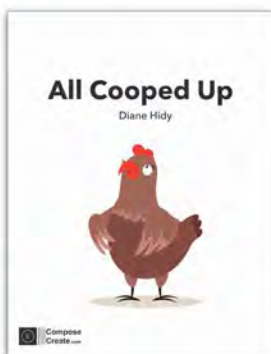

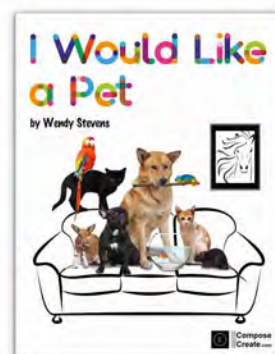

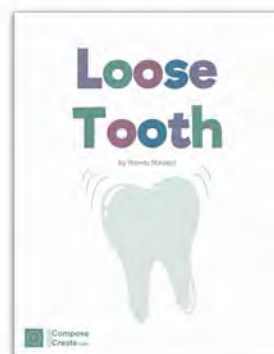

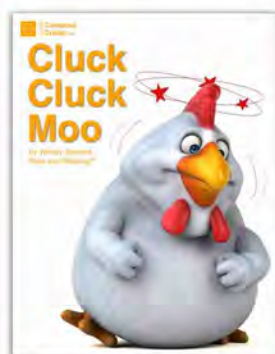

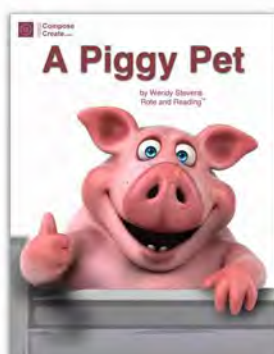

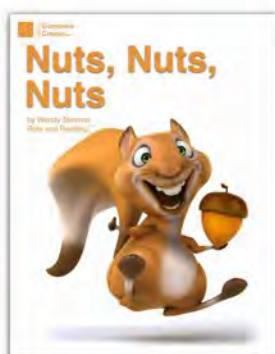

Never underestimate the psychological impact an "easier than it sounds" piece can have on children and teens. You never know when students are discouraged, demoralized, or berated in other parts of their lives.

One empowering piece could give them confidence that fuels them in other difficult circumstances.

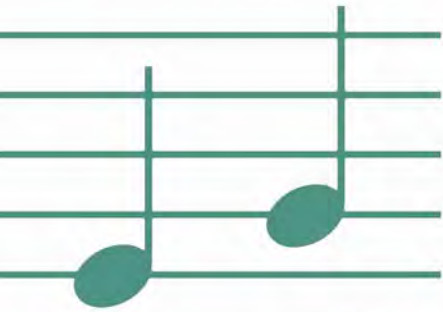

New
2026

New
2026

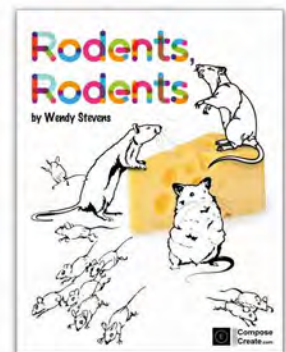

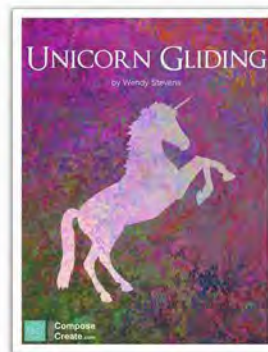

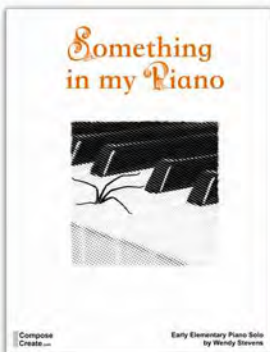

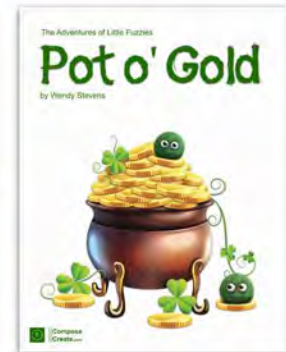

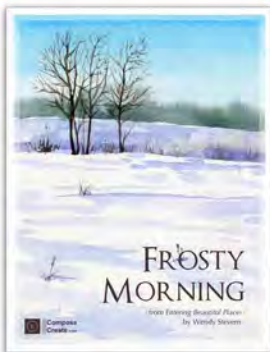

SECONDS

THIRDS

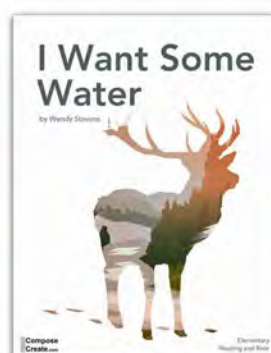

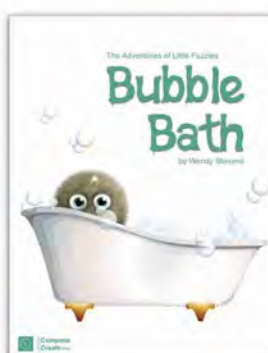

These pieces
use steps, skips
and repeated notes

After introducing steps and skips, it's easy to think students "get it." But asking them to draw steps or skips on the staff may reveal gaps in learning. Try this "Where Am I?" game with your student:

1. Can you draw a D on the staff?
2. The next note is a step up from that. Draw that.
3. The next note is a skip down from that note. Draw that.
4. The last note is a step up from that. Where did you end?

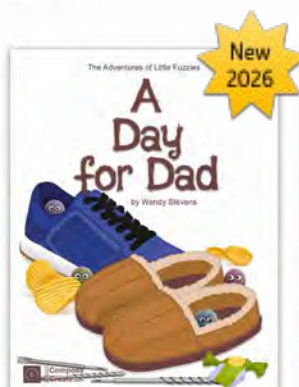

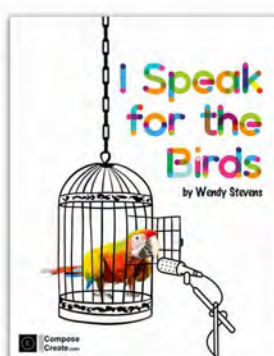

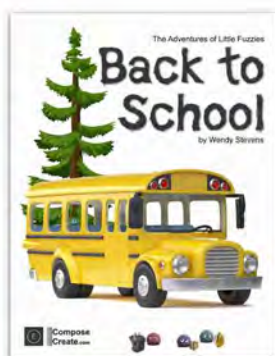

Get a printable staff and keyboard here: ComposeCreate.com/staff-and-keyboards

THIRDS

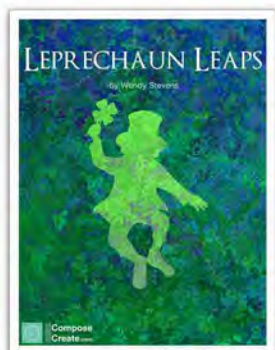

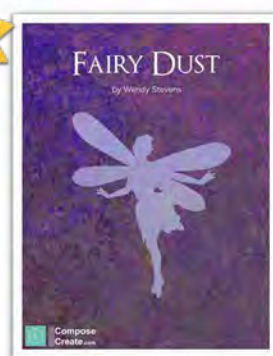

continued

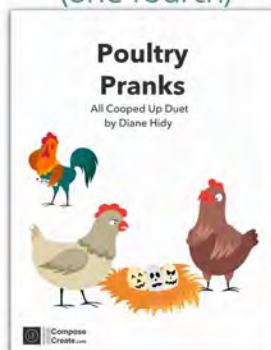

(one fourth)

(one fifth)

(duet)

(duet)

Here's a variation of the previous game, but one that tests their awareness of seconds and thirds on the keyboard rather than the staff.

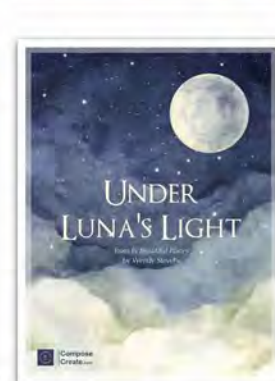

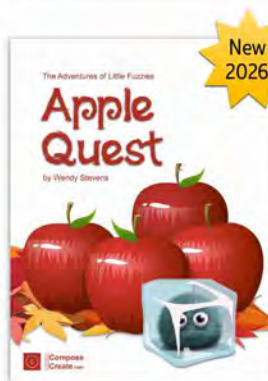

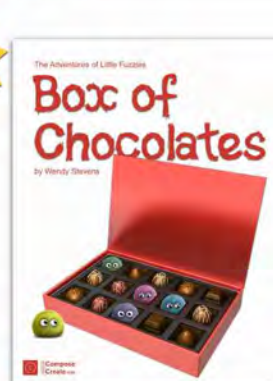

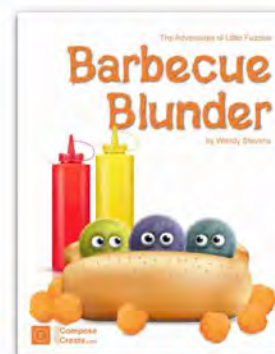

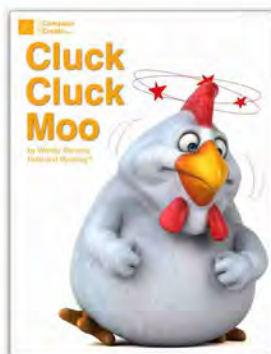

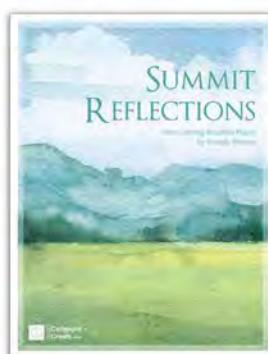

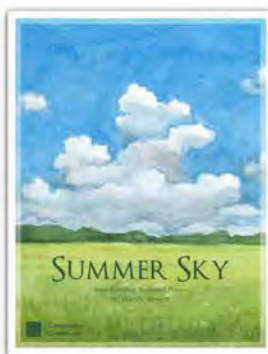

Turn away from the student so you can't see them. Give them instructions that are variations of the following:

1. Play a C.
2. Move up a 3rd.
3. Move up a 2nd.
4. Move down a 3rd.
5. Move down a 3rd again.
6. What note are you on now?

FOURTHS

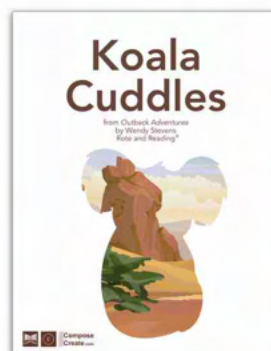

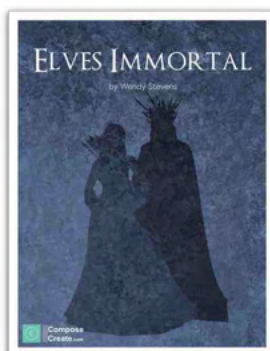

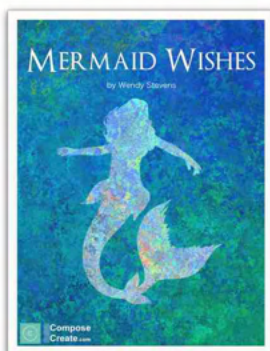

These pieces use seconds, thirds, fourths, and some fifths.

FOURTHS

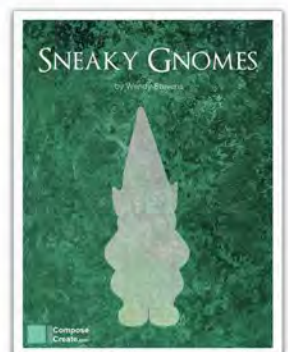

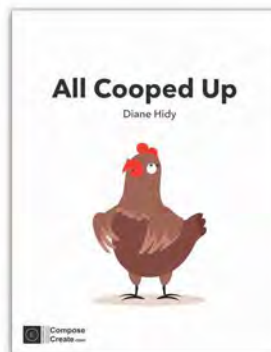

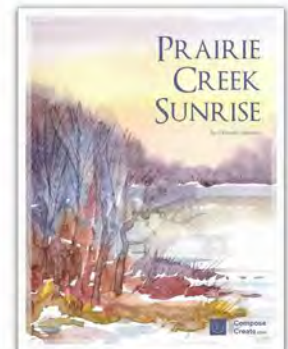

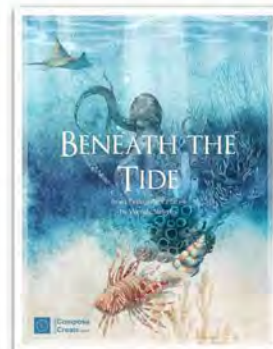

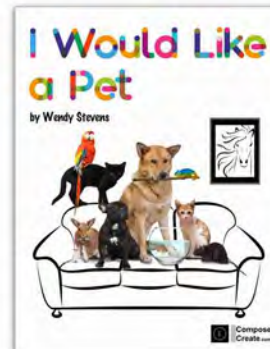

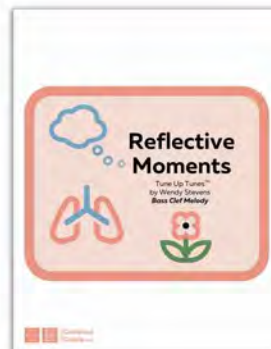

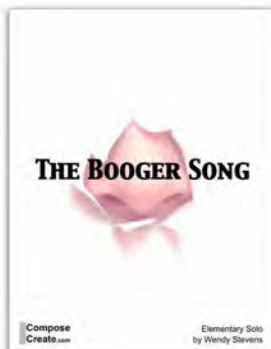

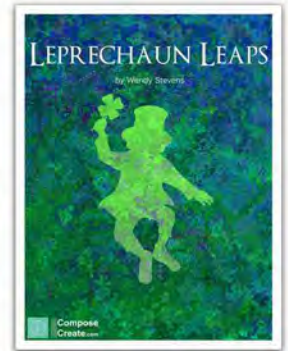

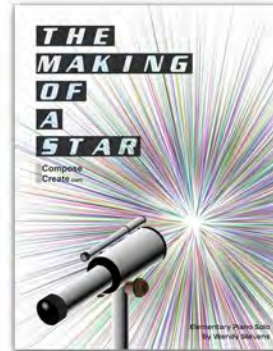

continued

Fourths in a single hand are particularly problematic because they always involve playing with the weak 4th or 5th finger. Giving students a simple exercise like this to practice daily can help them assimilate the awkward, physical "feeling" of a fourth.

FIFTHS

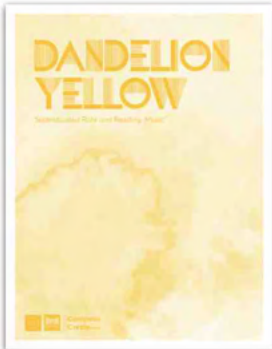

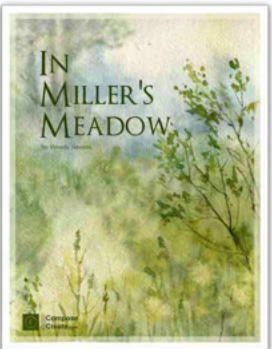

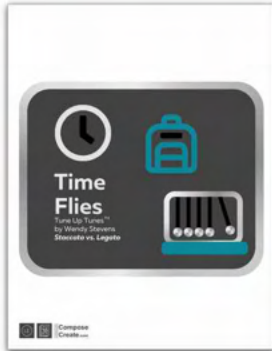

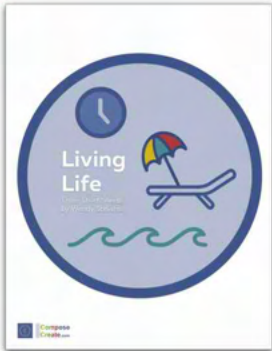

Students can easily recognize fifths when you describe them as a "line and a line with a line in between" or a "space and a space with a space in between."

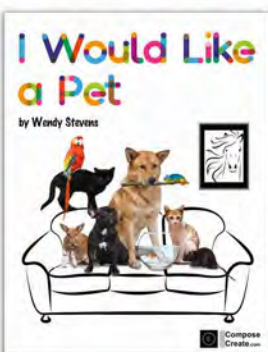

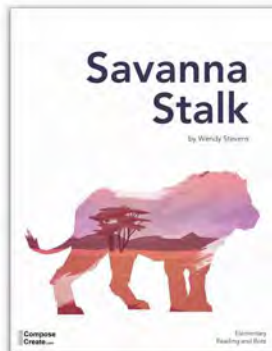

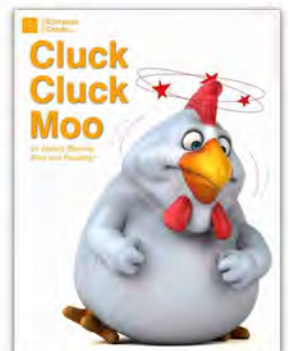

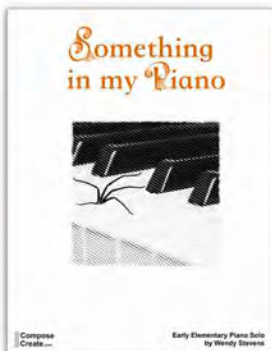

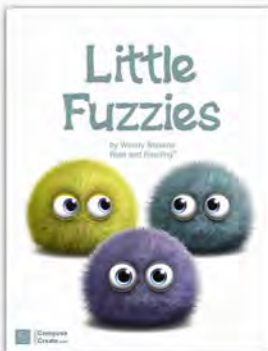

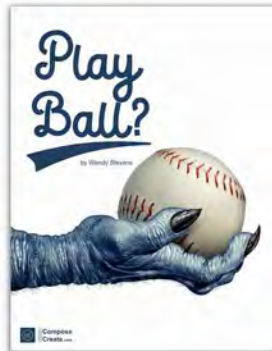

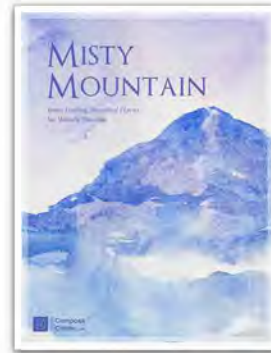

FIFTHS

continued

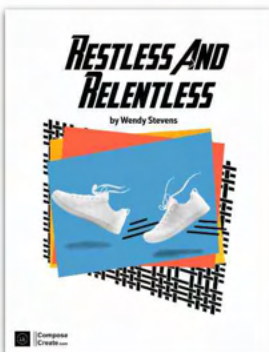

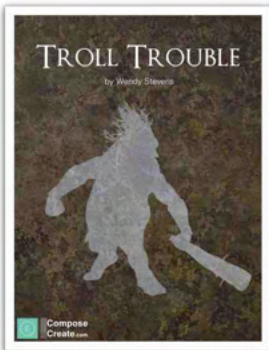

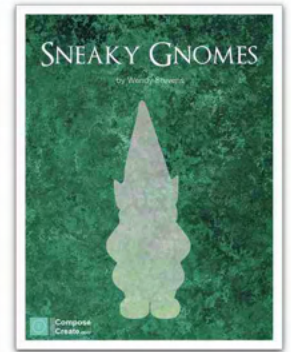

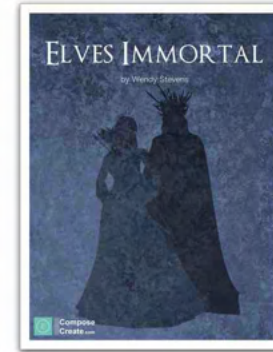

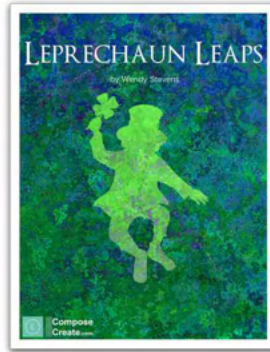

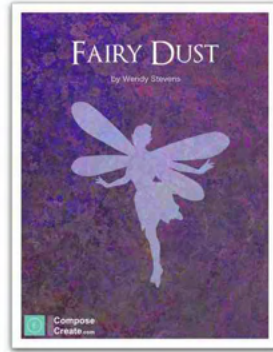

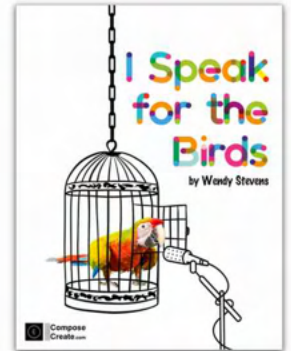

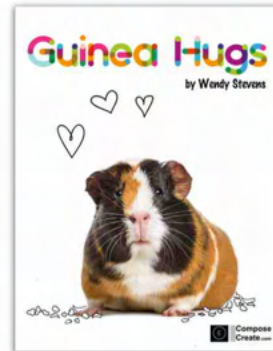

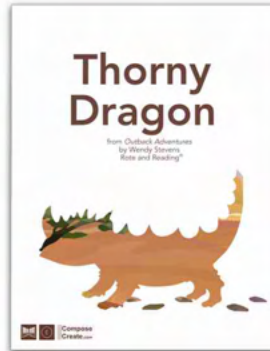

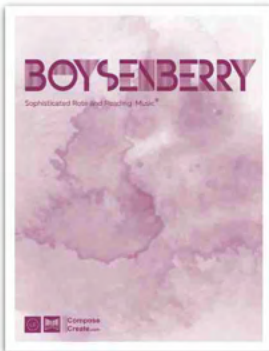

FINGER DEXTERITY

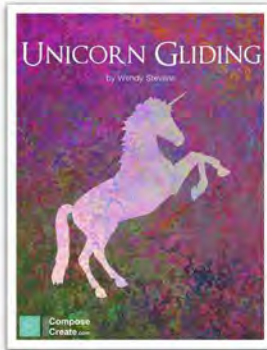

Even 5-6 year olds are still learning to use scissors and children ages 7-8 are still learning to write legibly. Fine motor skill mastery is a challenging process for many children.

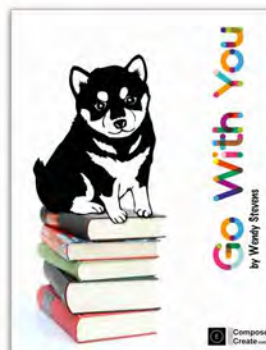

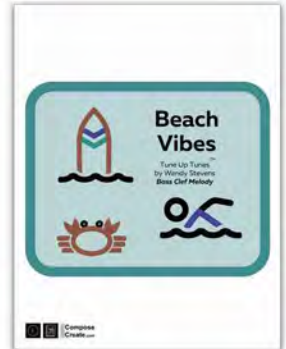

FINGER DEXTERITY *continued*

BASS CLEF READING

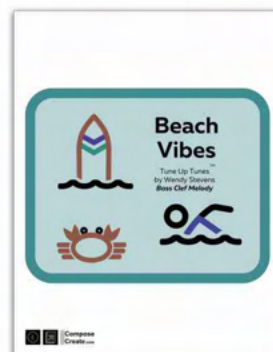

New
2024

LEFT HAND DEVELOPMENT

Tune Up Tunes® provide sets of Short Sheets® to improve specific areas in which students struggle.

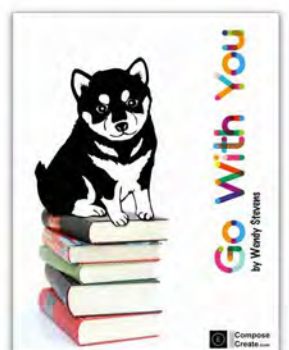

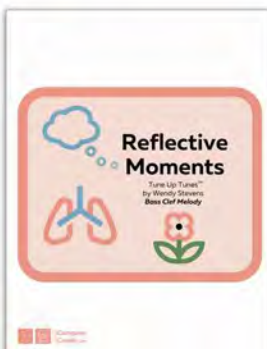

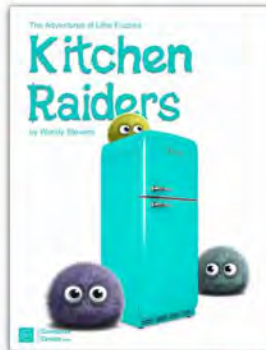

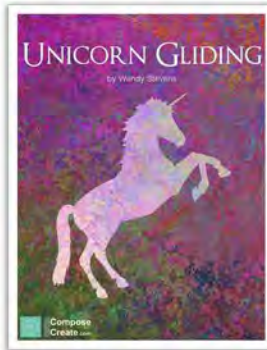

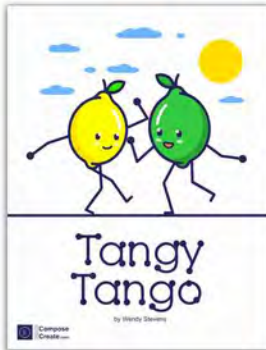

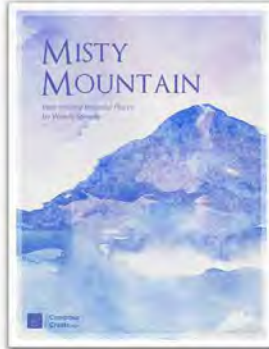

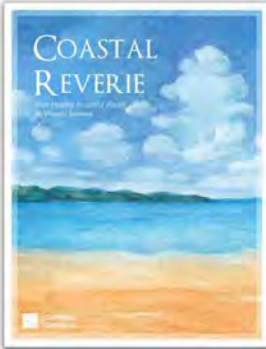

These are Tune Up Tunes® for left hand melody balance, and development.

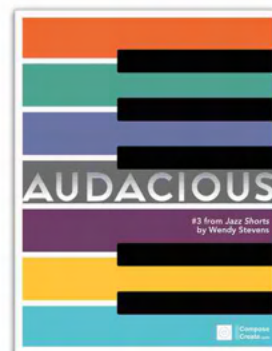

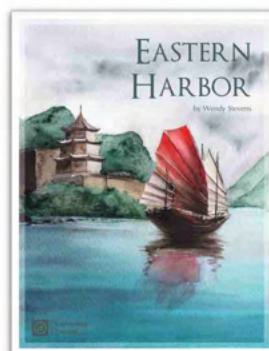

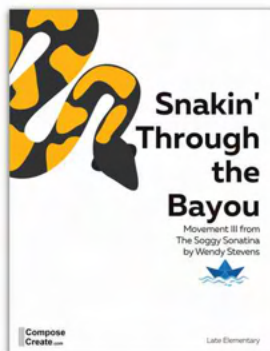

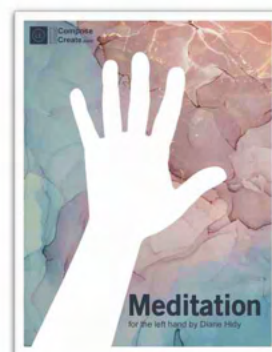

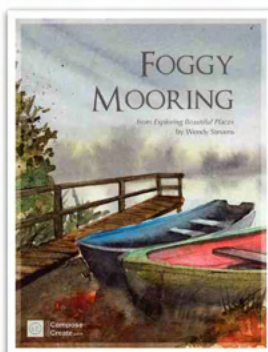

Start with Tune Up Tunes® if your students struggle with any particular skill.

See the "Tune Up Tunes®" catalog page or browse here for more:
ComposeCreate.com/tune-up-tunes

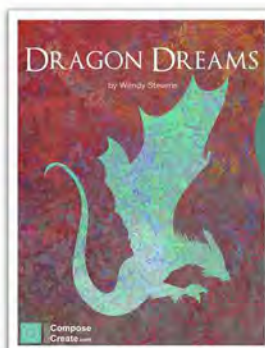

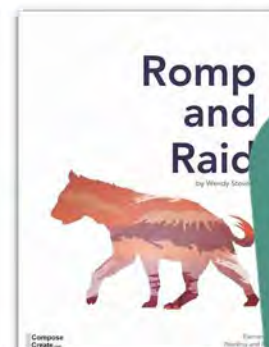

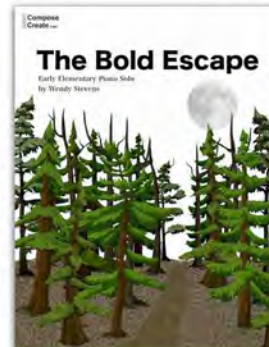

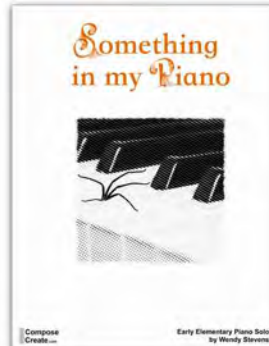

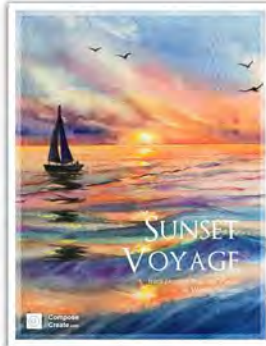

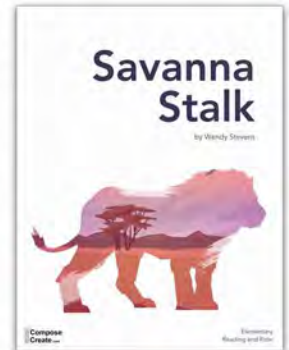

LEFT HAND DEVELOPMENT *continued*

LEFT HAND DEVELOPMENT *continued*

HANDS TOGETHER PLAYING

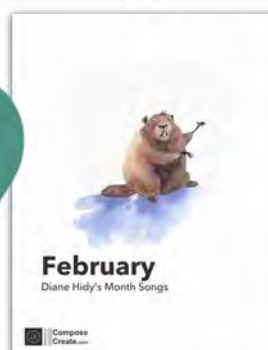

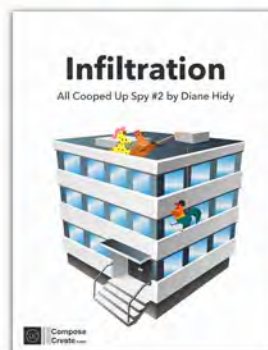

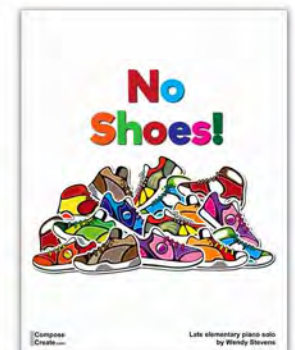

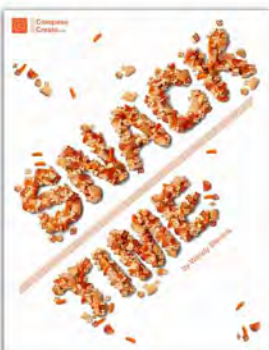

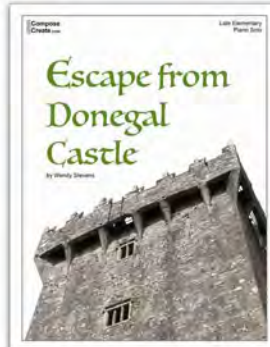

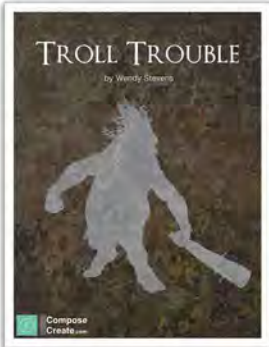

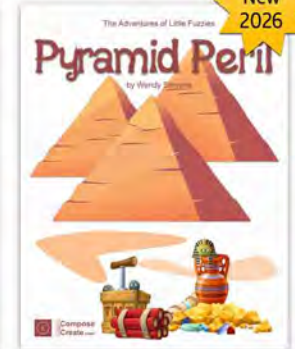

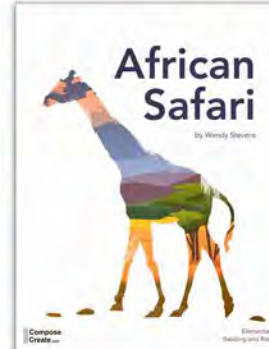

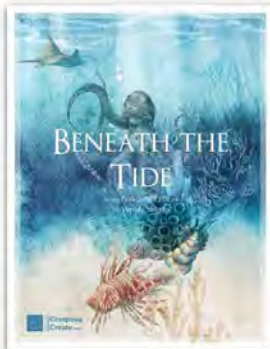

The coordination involved in reading music and processing directions for each hand is notably not an easy task!

These pieces can help that challenge by making it easy!

HANDS TOGETHER PLAYING *continued*

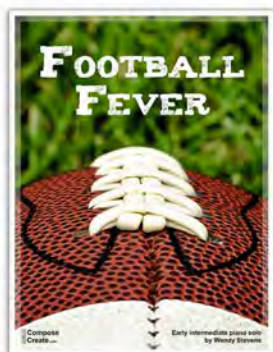

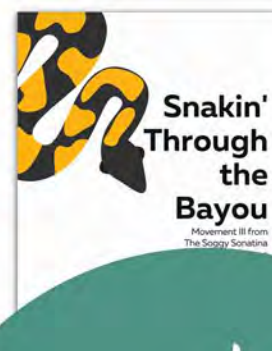

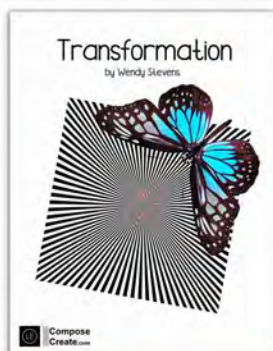

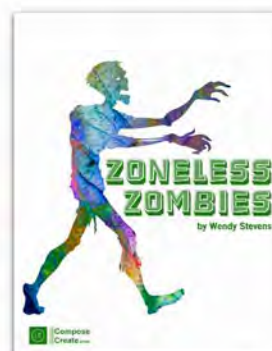

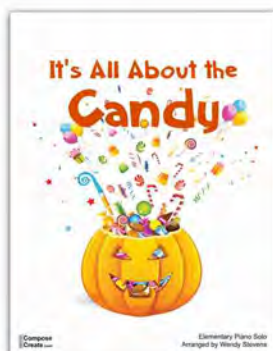

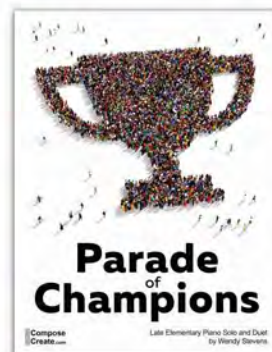

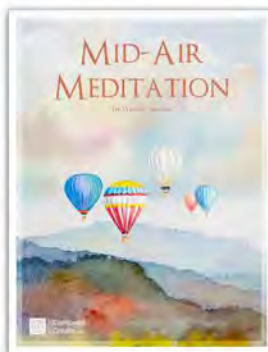

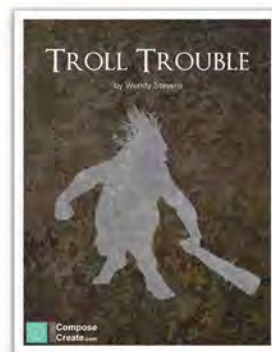

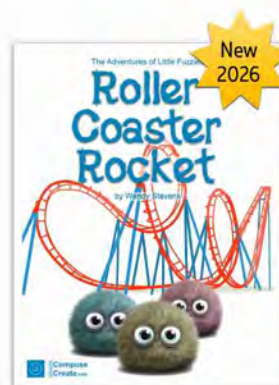

New
2026

Sometimes students struggle because they can't imagine what the two-handed piece should sound like. Try playing the right hand while they play the left and vice versa.

This allows them to "hear" how the parts fit together, and can make passages easier because their hands can follow what they remember hearing at the lesson.

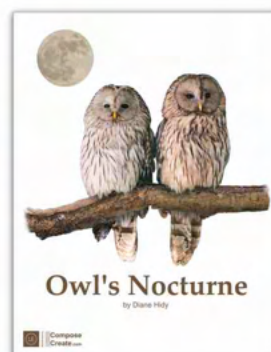

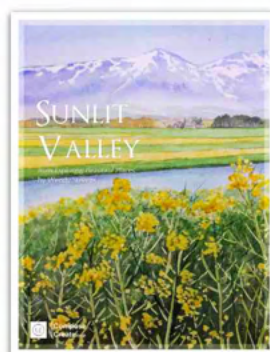

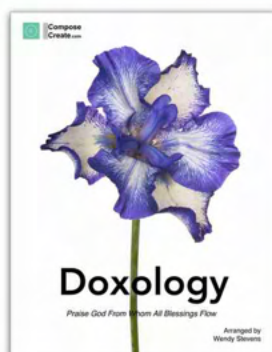

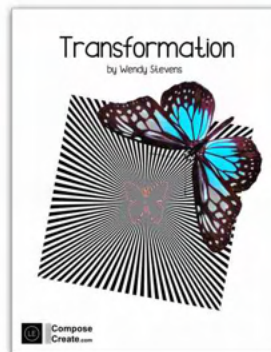

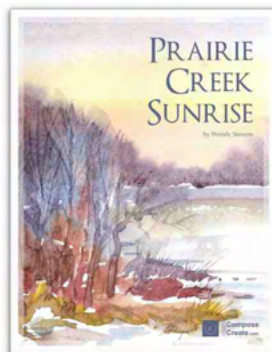

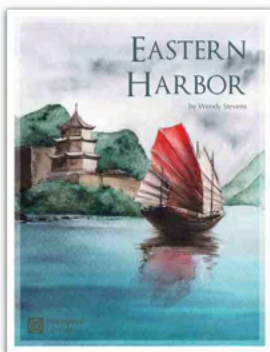

BASS CLEF FOR BOTH HANDS

We must always strive to put ourselves in our students' shoes because what has become easy & natural for us is new, unknown, and often scary for them.

TREBLE CLEF FOR BOTH HANDS

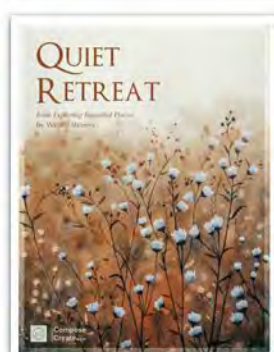

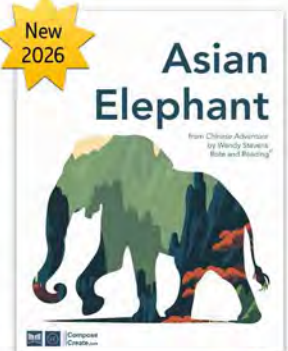

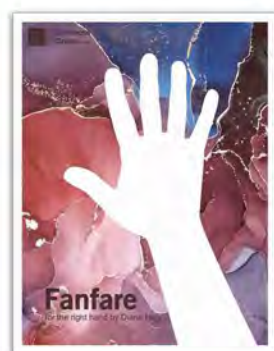

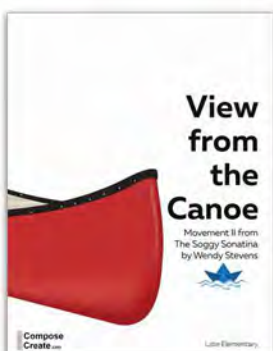

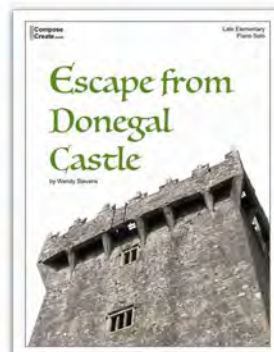

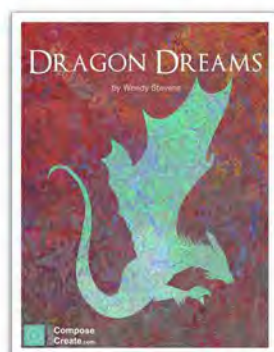

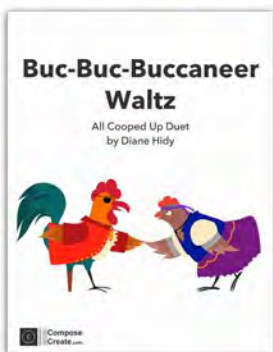

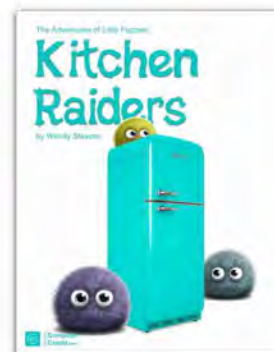

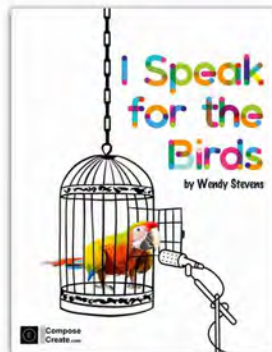

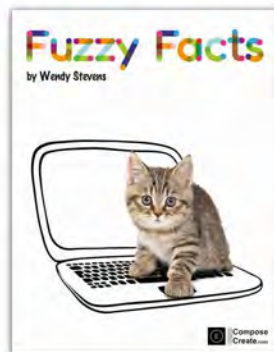

"Pure logic would tell us that if it takes a child 2-3 years to learn to read well, then it's going to take even longer for a child to learn to read music well since they only have one lesson per week."

~ Wendy Stevens

ComposeCreate.com/how-long-does-it-take-to-learn-to-read-music

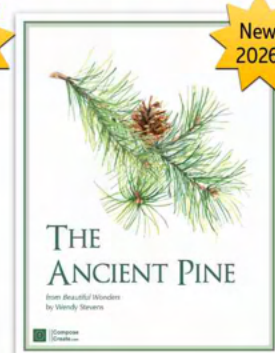

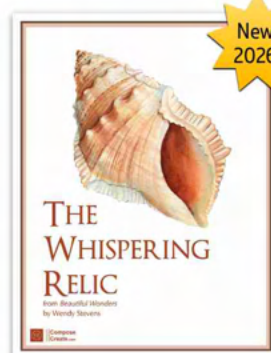

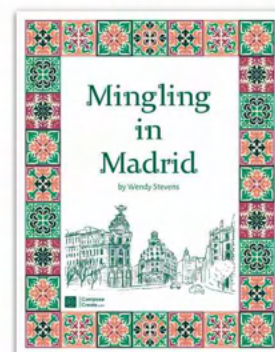

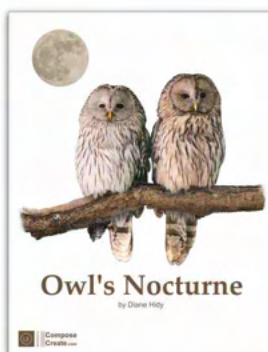

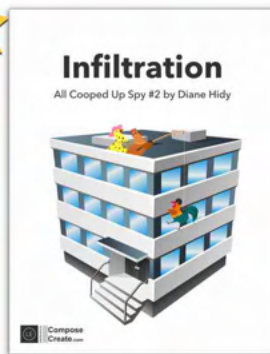

SHAPING THE PHRASE

These solos include four measure phrases to help teach students how to shape the phrase.

SHAPING THE PHRASE

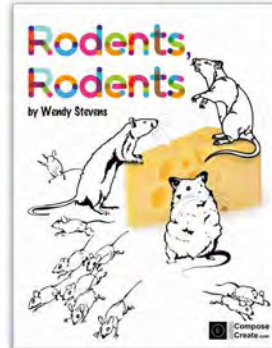

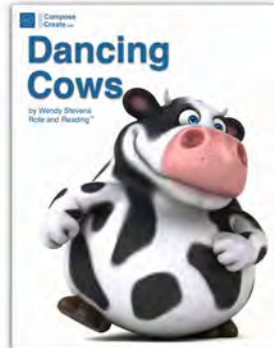

continued

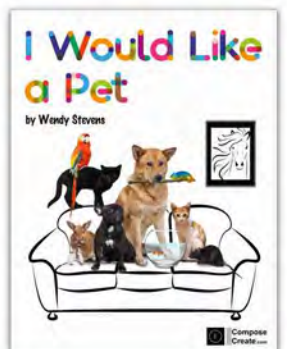

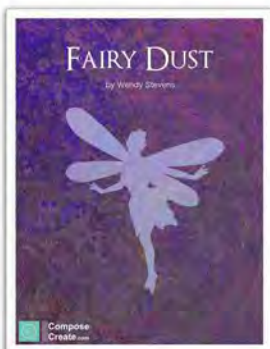

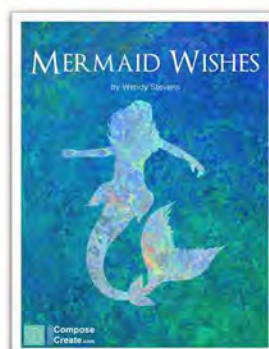

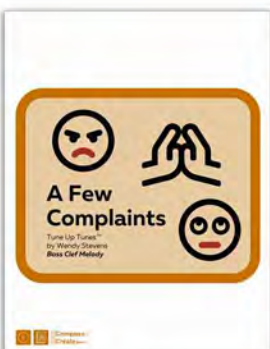

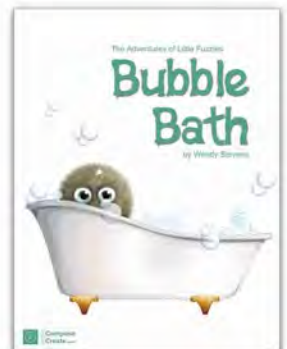

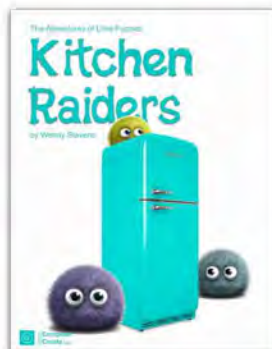

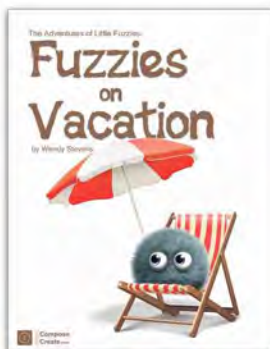

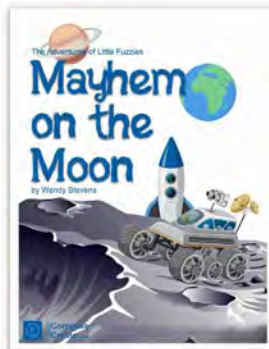

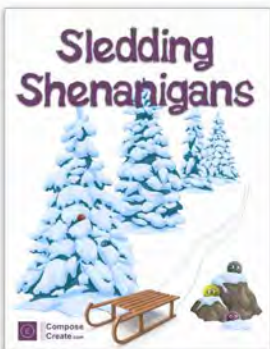

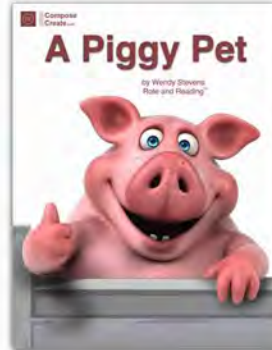

OUT-OF-POSITION PLAYING

Much of our music already fits in this category. But these pieces are especially helpful in keeping students from getting stuck.

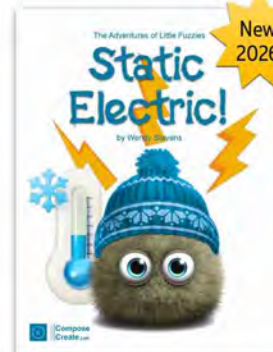

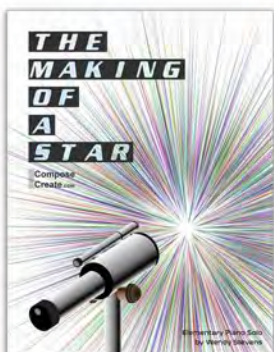

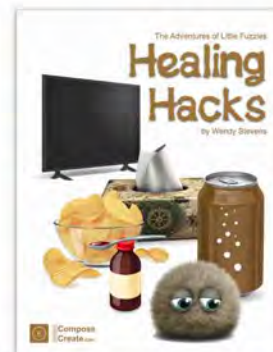

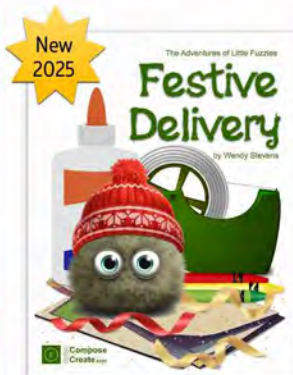

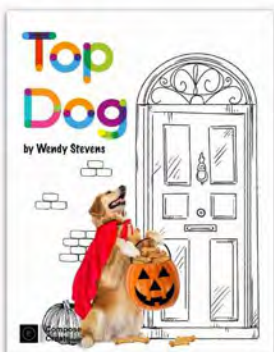

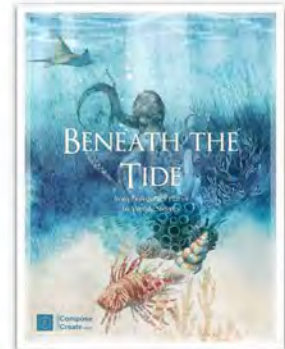

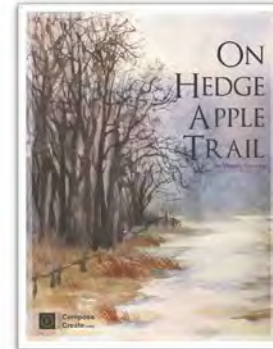

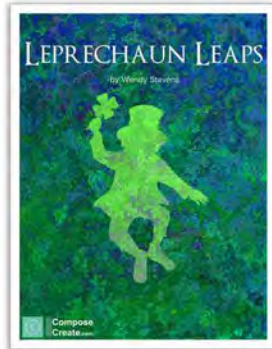

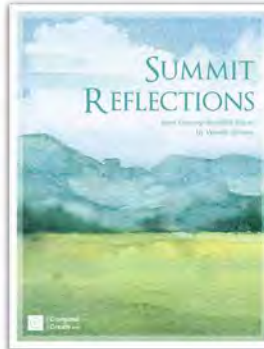

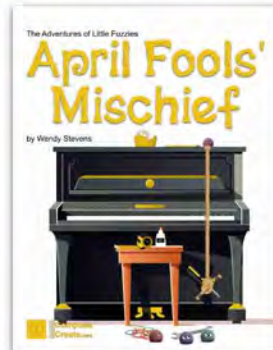

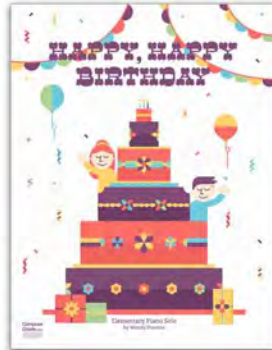

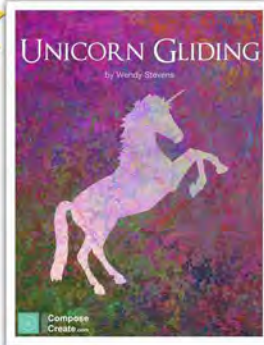

Don't get stuck on the black keys!

Don't get stuck in Middle C position!

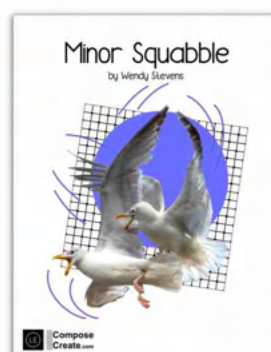

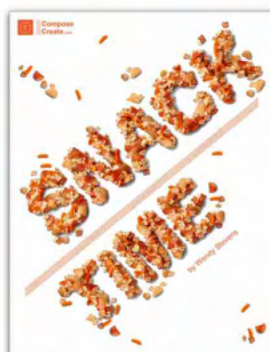

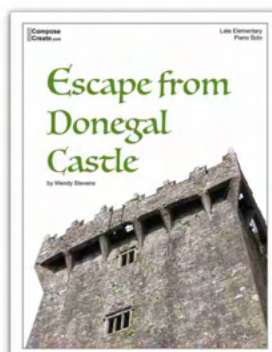

OUT-OF-POSITION PLAYING *continued*

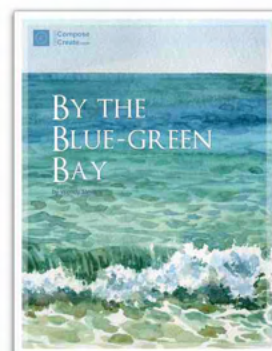

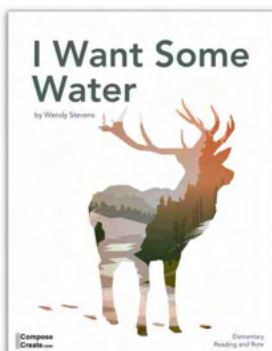

OUT-OF-POSITION PLAYING

continued

Don't get stuck in C position!
continued

Don't get stuck in G position!

Instead of asking, "What is your hand position?" try:

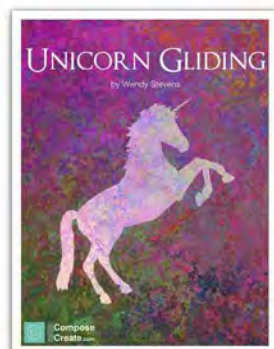

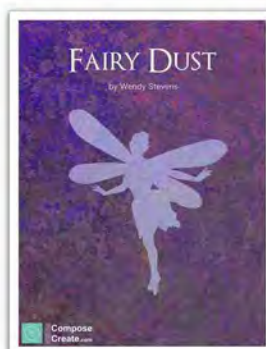

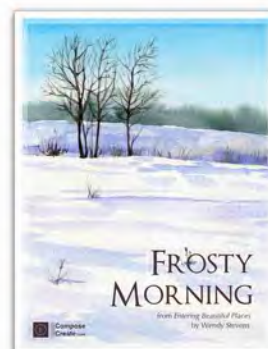

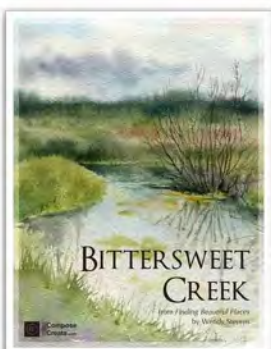

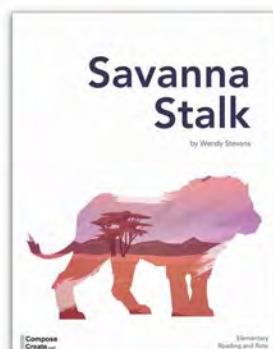

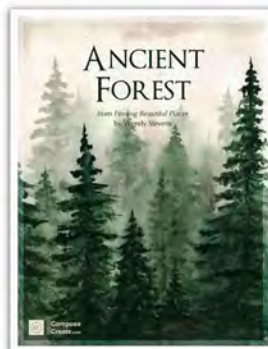

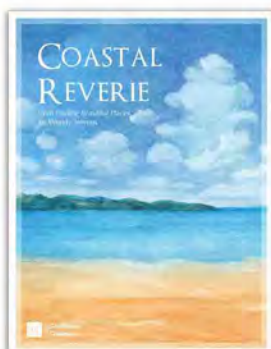

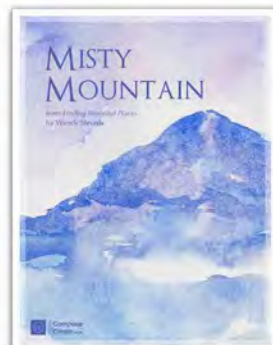

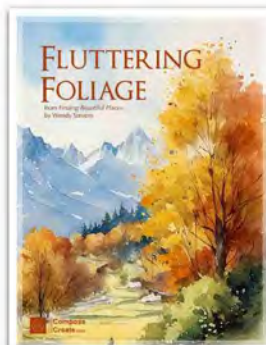

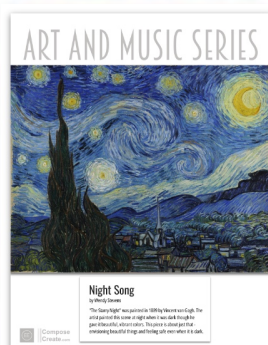

"Where does your right hand start?"

or

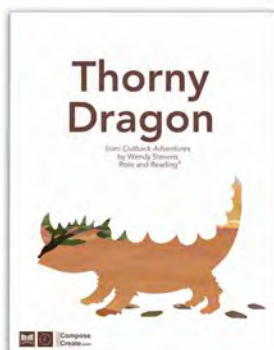

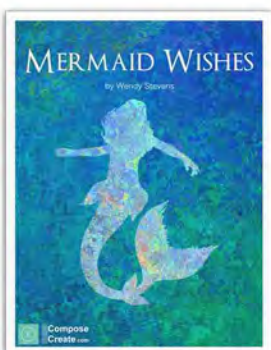

"Where does your left hand start?"

This changes the expectation of a set position.

PLAYING SOFTLY

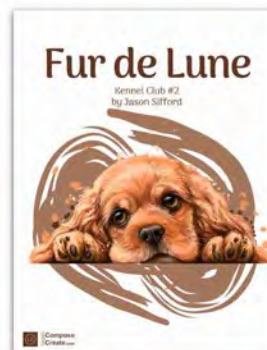

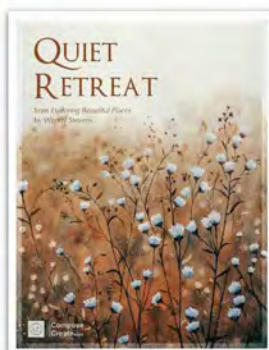

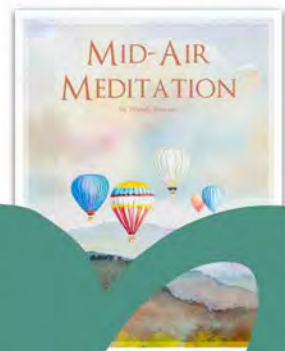

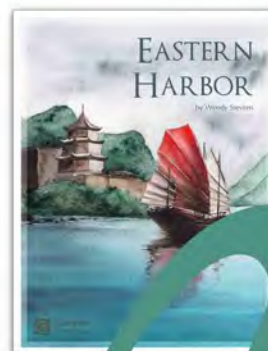

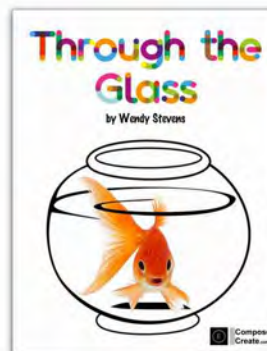

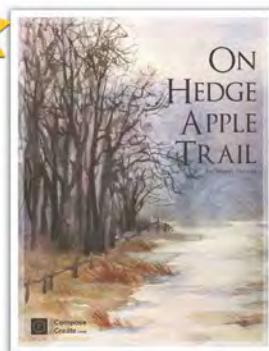

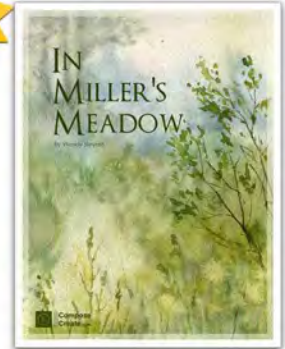

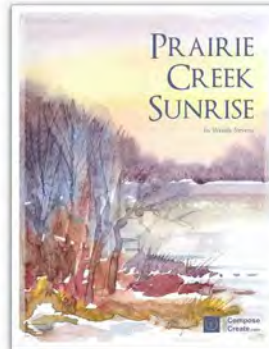

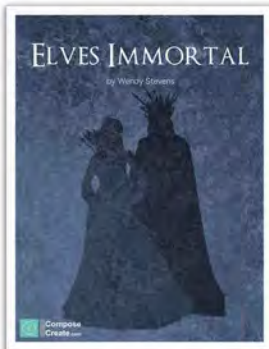

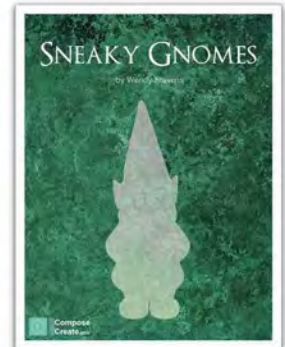

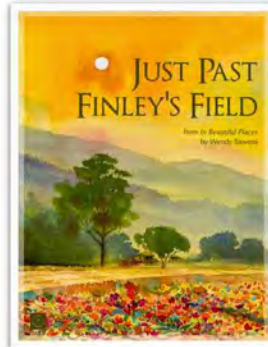

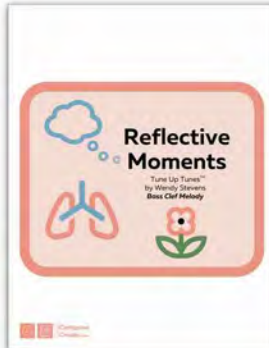

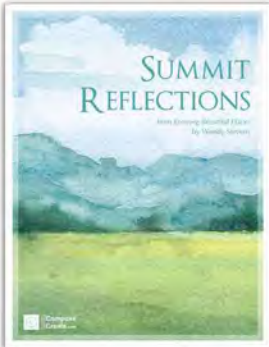

Weight and depression are two aspects of playing softly. The slower you depress the key, the softer the sound. But you must have enough weight and must depress fast enough to make a sound at all!

PLAYING SOFTLY

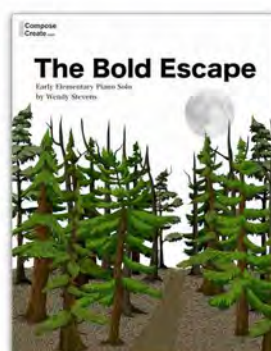

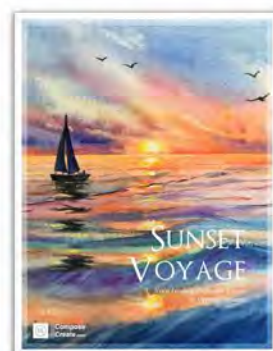

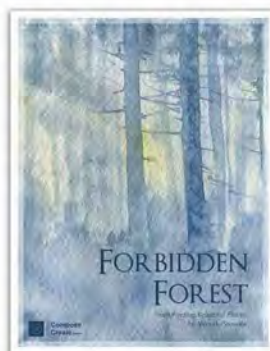

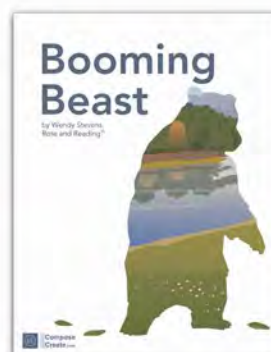

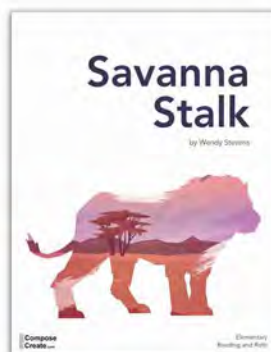

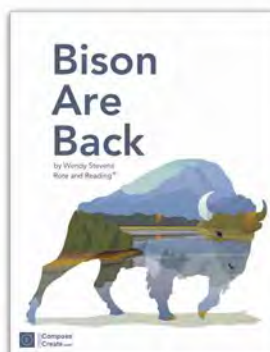

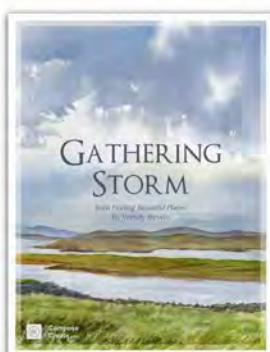

continued

New
2026

PLAYING LOUDLY

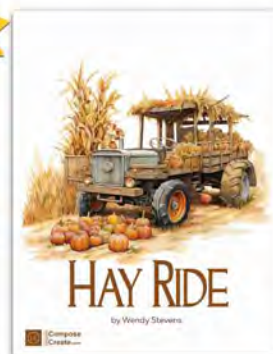

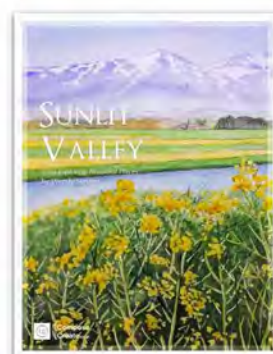

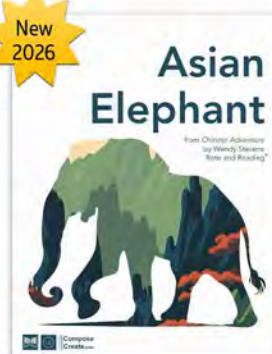

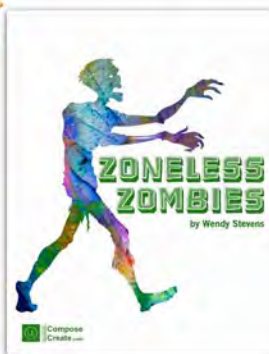

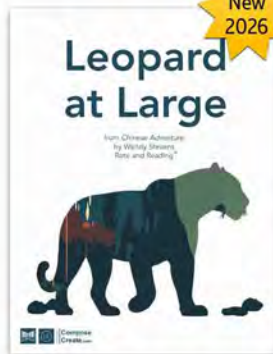

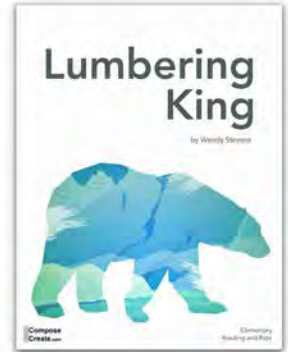

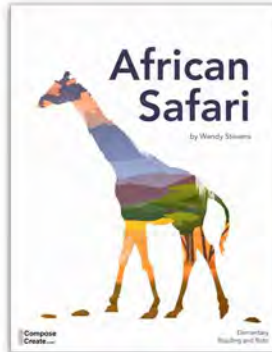

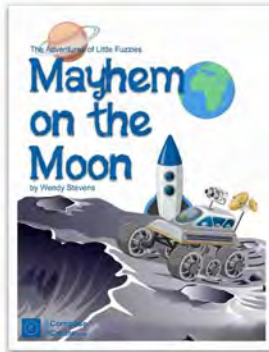

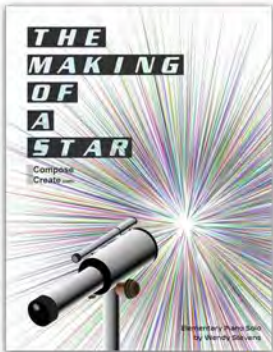

*Sometimes a simple rephrasing
can help students play with
better technic and musicianship.*

Instead of "play loudly," try using phrases like:

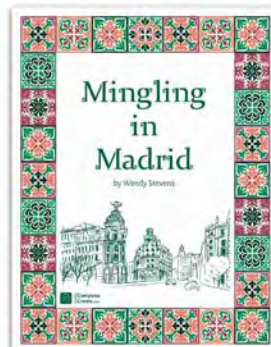

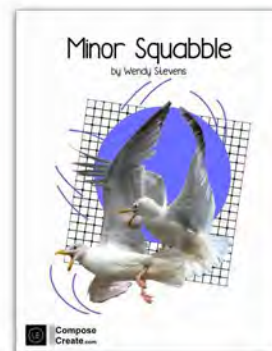

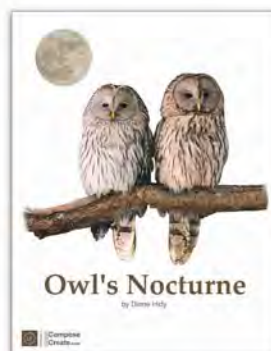

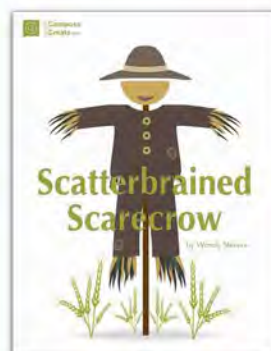

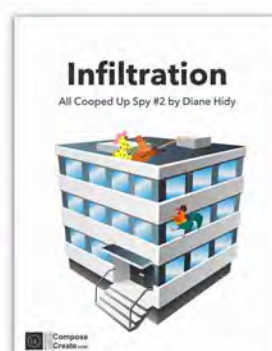

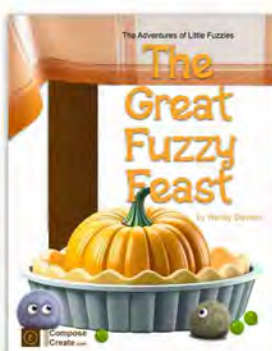

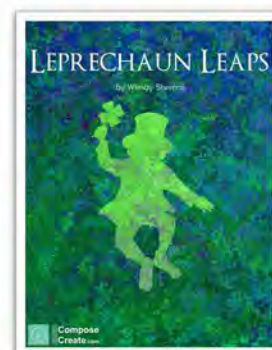

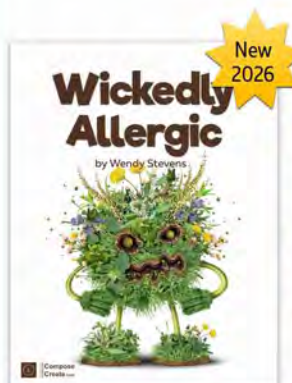

*"Draw the sound out of the piano."
"Make this the climax of the movie!"
"Play to your Mom on the back row."*

*These more descriptive phrases can help students play
with more expression and mindfulness.*

PLAYING LOUDLY *continued*

TWO-NOTE SLURS

When teaching two-note slurs,
it's helpful to use phrases that
tell the body what to do like:

"Down-up"
"Drop-lift"
"Heavy-light"
"Drop-roll"

STACCATO & LEGATO COORDINATION

Many pieces can help the coordination of legato and staccato in small ways. But these Tune Up Tunes® are sets of music specifically and strategically composed to help students improve this difficult skill.

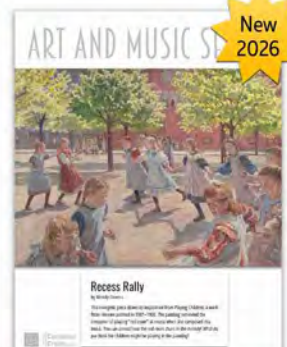

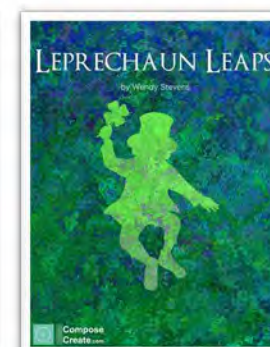

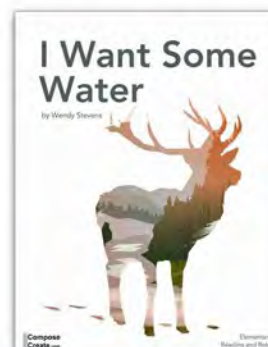

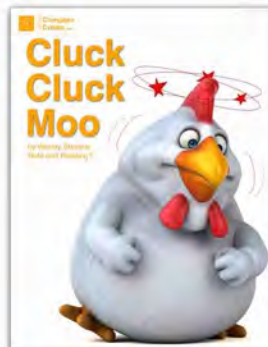

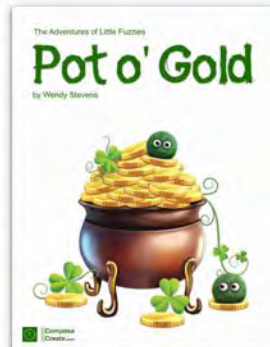

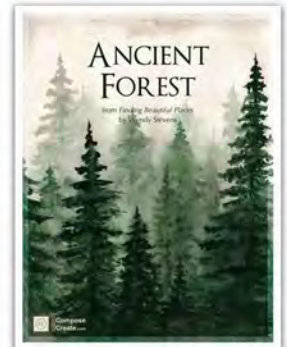

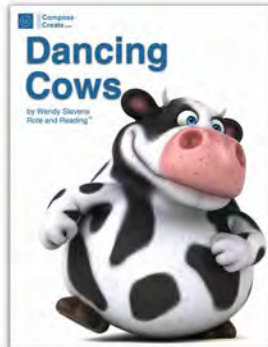

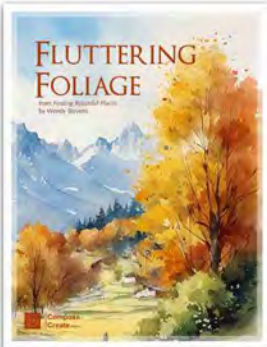

This technique exercise can help your students with legato and staccato coordination. Notice the exercise does not start on C. Forcing your students to do this exercise in other 5 finger positions will help prevent them from always defaulting to C position. Demonstrate and help them start very slowly. It takes significant concentration to do this exercise initially.

STEADY BEAT

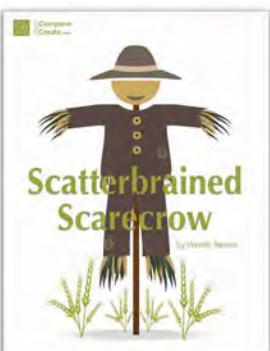

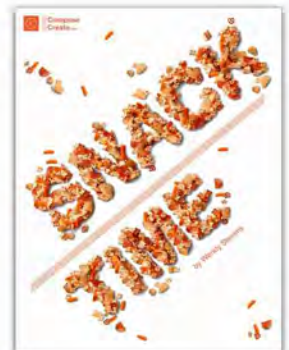

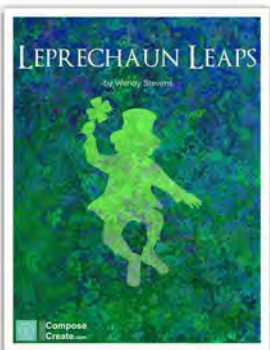

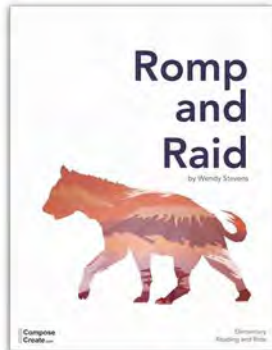

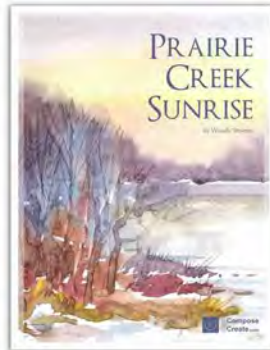

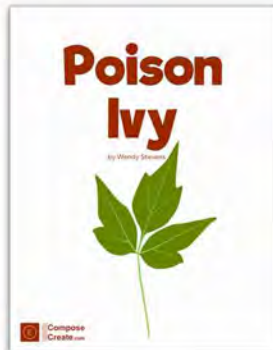

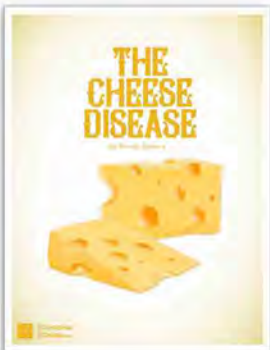

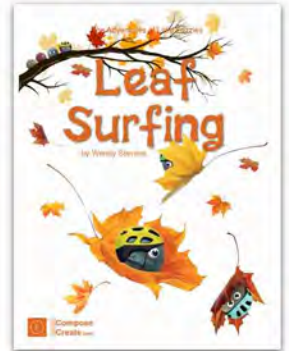

Lack of a steady beat can be caused by many things including rhythm and reading issues or simply the number of details that easily overwhelm students. These solos are easier to process with predictable rhythms and some have an almost "perpetual motion" element such that students can actually hear if they pause between beats.

New
2026

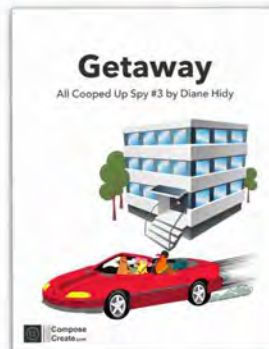

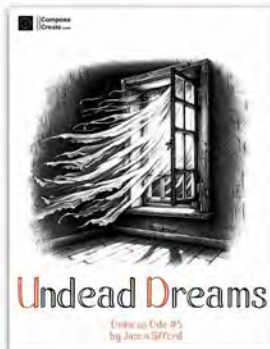

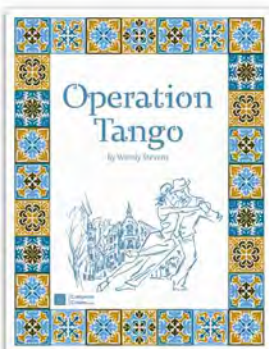

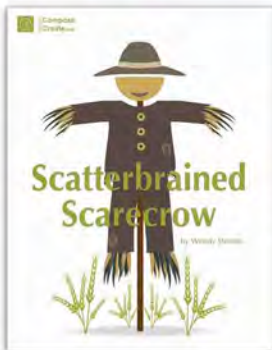

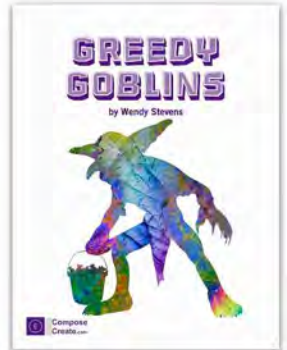

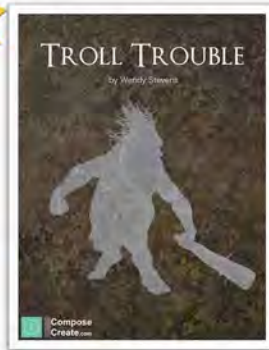

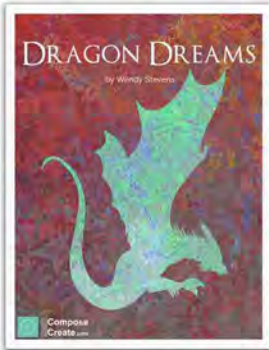

OBSERVING RESTS

It is difficult for the mind and body to feel or (obviously) hear a rest. But the body needs to feel something on that beat. Inviting students to say "shh!" or "rest" gives their mind the bookmark it needs for the space.

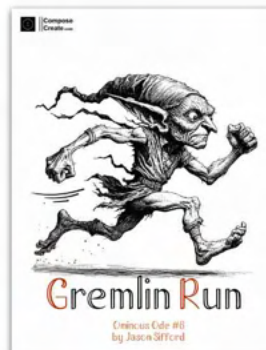

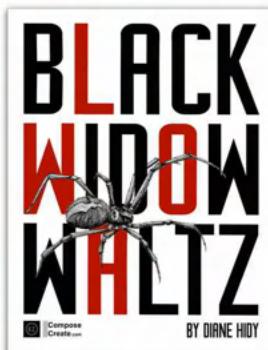

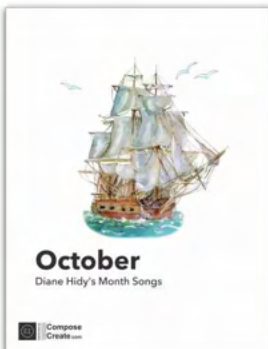

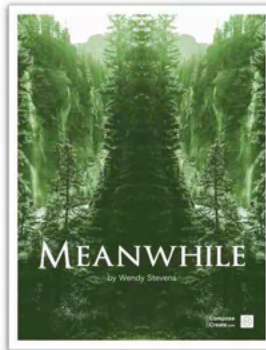

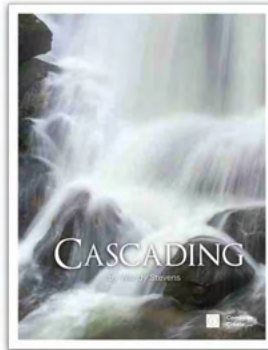

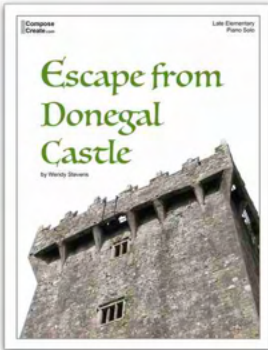

SHIFTING METER

4 5 6 3 2
4 4 8 4 4

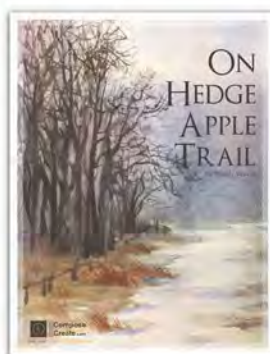

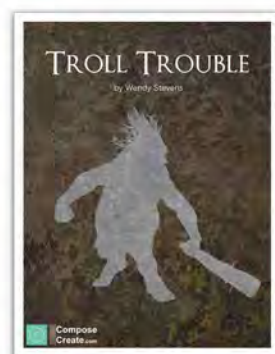

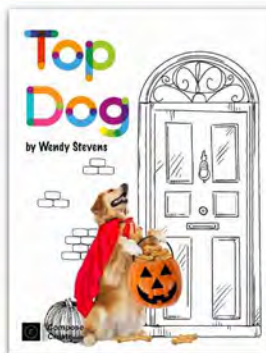

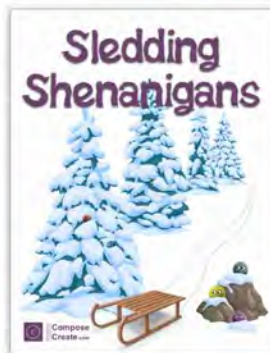

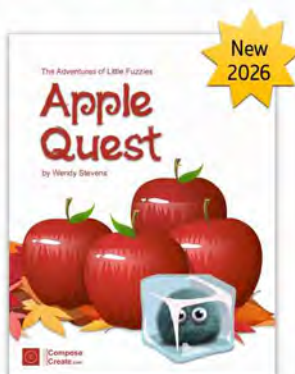

COMPOUND METER

6 7 9 12
8 8 8 8

SYNCOPIATION

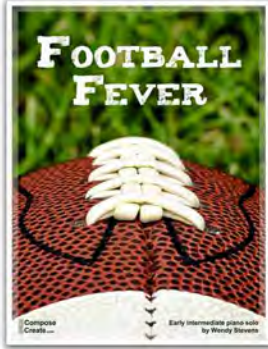

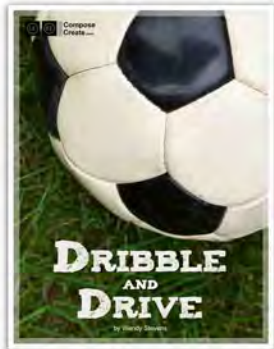

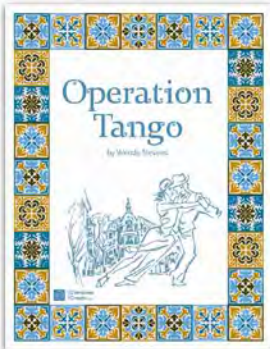

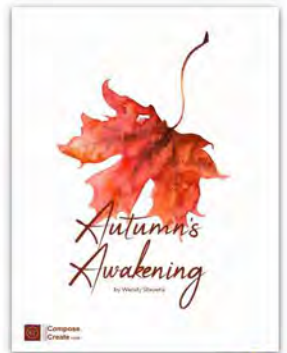

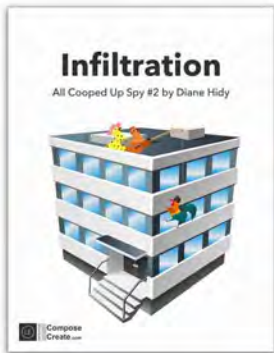

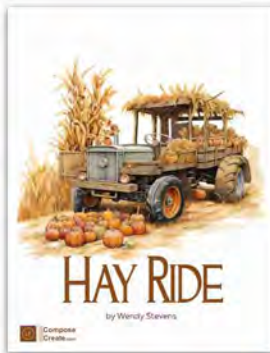

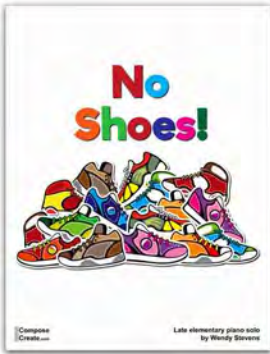

syncopated
/ˈsɪŋkəpəˈdɛd/ adjective

Characterized by displaced beats or accents so that the strong beats are weak and vice versa.

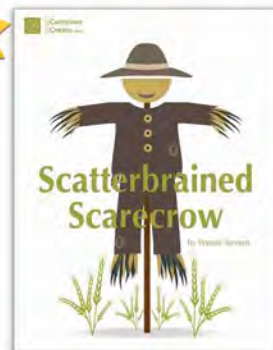

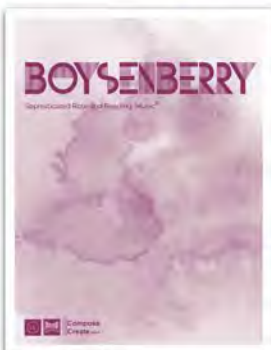

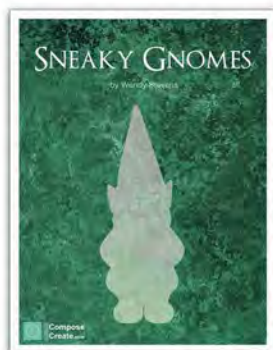

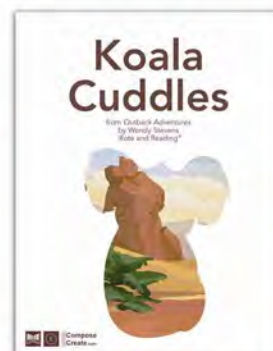

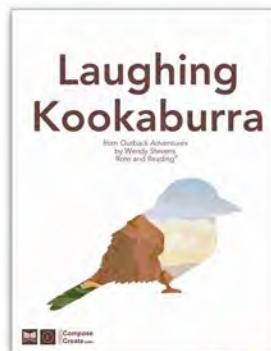

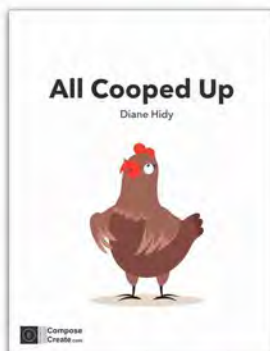

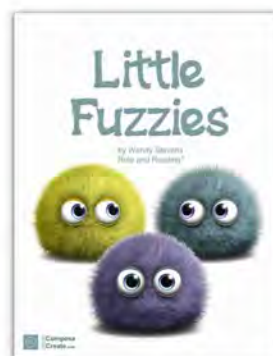

SYNCHOPATION *continued*

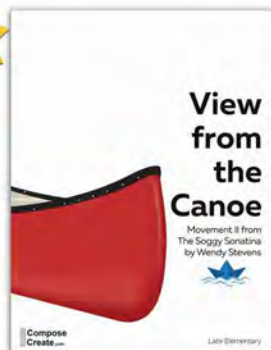

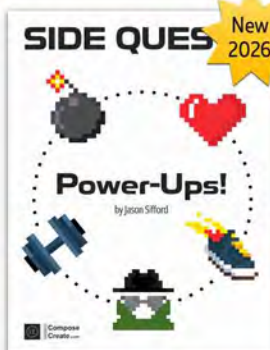

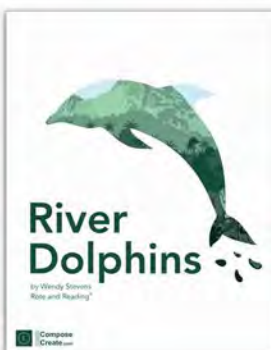

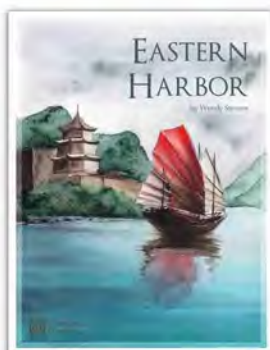

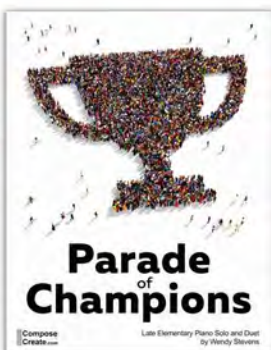

New
2026

TEACHING EIGHTH NOTES

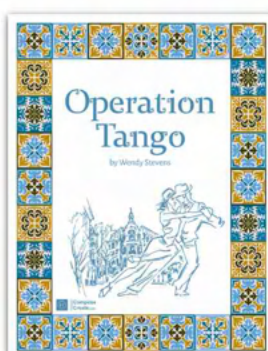

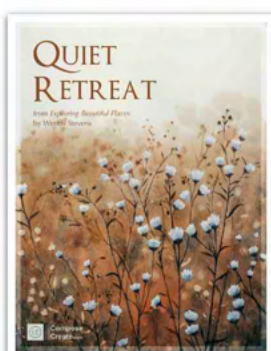

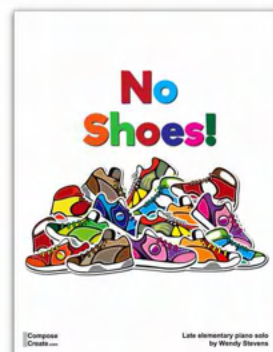

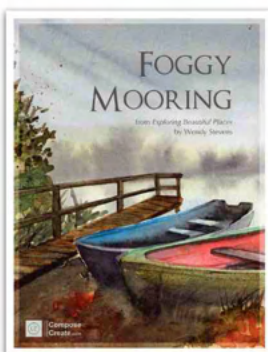

Simple eighth note passages to help students who struggle with eighths and rhythm accuracy.

DOTTED QUARTER NOTES

Hold It! is a set of Tune Up Tunes® specifically composed to help improve dotted quarter note rhythmic accuracy. This set of three pieces features one piece for each beat placement – on the first, on the second, and on the third beat.

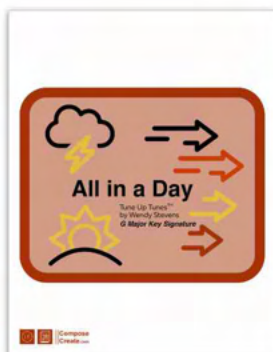

PLAYING IN KEY SIGNATURES

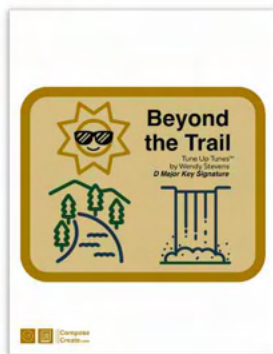

Late elementary students are still working on hand coordination, fluent reading, and general skills at the piano. Because of this, sharps and flats are often notated in a late elementary piece instead of using a key signature.

However, these pieces are specifically composed using key signatures and various compositional techniques to help late elementary students become comfortable in a specific key.

Each title contains three, one-page solos that give students experience with the sharped and flatted notes of each key signature.

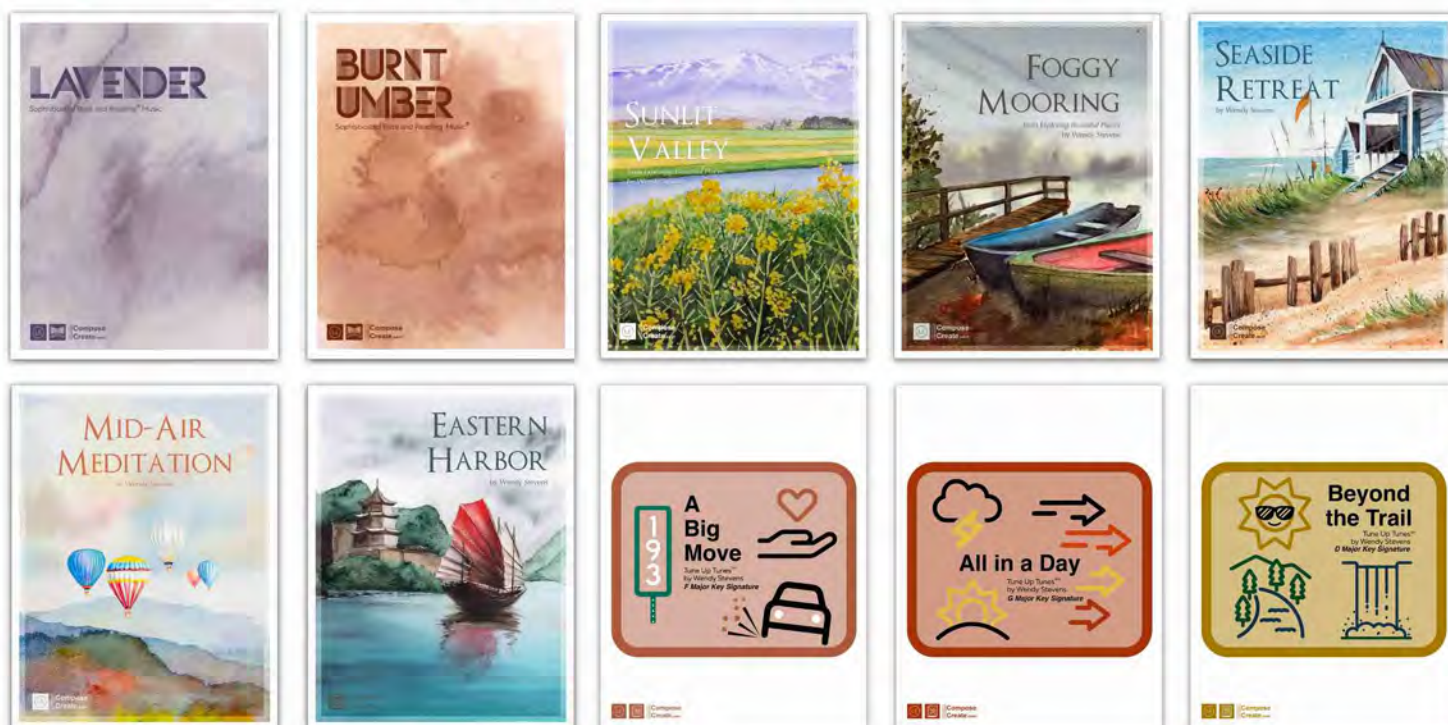

PEDALING

Many of our elementary solos include the use of a long pedal. But of course syncopated pedaling is a much more difficult task.

This set of Tune Up Tunes® is carefully composed to help students transition into pedaling every other measure and then every measure.

In our late elementary music, we try to make pedaling easy by notating all the pedal lifts instead of using the general "pedal simile" or "pedal harmonically." Here are several solos that lift the pedal in simple ways, like every measure or every other measure.

SIGHT READING

Practice Sight Reading Pieces

We have 10 levels of sight reading practice pieces for students who are preparing for musicianship exams. These leveled pieces can also help you evaluate current and transfer students' reading abilities.

Levels 1-6

Levels 7-10

But though it's important to practice sight reading, it doesn't always get better by just doing it. "Pre-processing" skills must be taught to help students process details before and as they are playing.

 A screenshot of the Music Minis software interface. It displays a musical score for a piece titled "MUSIC KIDS LOVE". The score is in 4/4 time and features a melody in the treble clef and a bass line in the bass clef. The dynamic marking is *mf*. Below the main score, there are four smaller thumbnails showing different parts of the exercise. A green circle with the letter 'E' is in the bottom right corner.

 A screenshot of the Music Minis software interface. It displays a musical score for a piece titled "MUSIC KIDS LOVE". The score is in 4/4 time and features a melody in the treble clef and a bass line in the bass clef. The dynamic marking is *f*. Below the main score, there are four smaller thumbnails showing different parts of the exercise. A green circle with the letters 'LE' is in the bottom right corner.

Enter Music Minis™ which are designed to help teach these skills!
See next page...

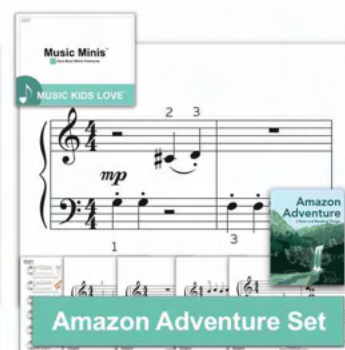

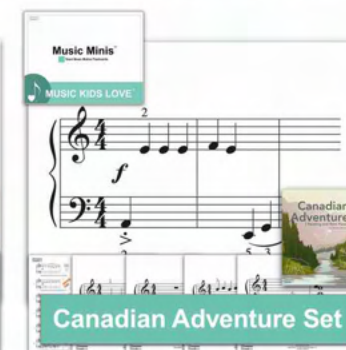

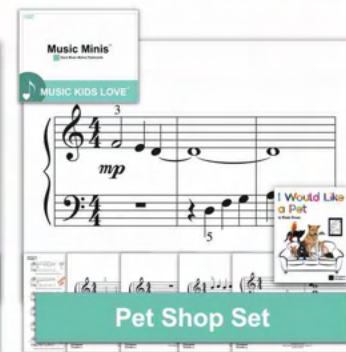

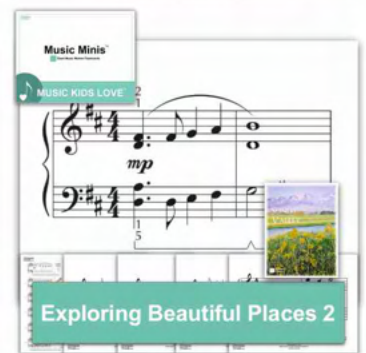

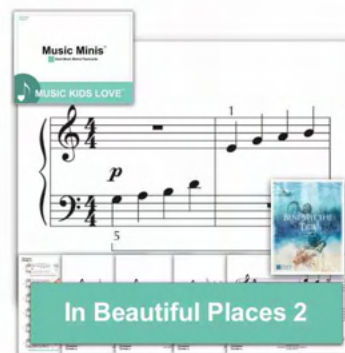

MUSIC MINIS™

Visit this post on exciting ways
to gamify Music Minis™:
ComposeCreate.com/games-for-music-minis

Music Minis™ are designed to help teach sight reading, attention to detail, and faster learning of main motives. These small motives from popular ComposeCreate® pieces are situated on large, 8 1/2" x 11" printable pages. These giant flashcards help students focus on the details of just one music motive.

We must teach our students what to notice and process before they can be successful with sight reading. Music Minis™ helps you do just that.

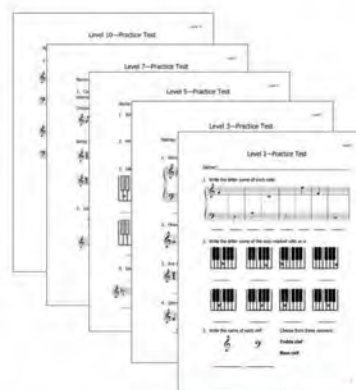

MUSIC EXAM PREP

Practice Theory Tests

Sometimes we think our students understand a music concept, only to learn in a written test that they do not.

These 11 levels of practice theory tests can help reveal misunderstandings about music theory in students' learning. Plus they can help prep for music theory exams.

Levels A-11

Practice Sight Reading Pieces

We also have 10 levels of sight reading practice pieces for those preparing for musicianship exams. These leveled pieces can also help you evaluate current and transfer students' reading abilities.

Levels 1-6

Levels 7-10

Music Minis™

Music Minis™ are printable giant flashcards that isolate detailed music motives. These help you teach "pre-processing" skills like finding hand positions, noting articulations, processing how rhythms will sound, and more skills.

This helps students focus on quickly processing small motives instead of getting bogged down in entire pieces, helping them learn to make pre-processing a habit for all music reading.

An entire post of educational games for Music Minis™ is here:

ComposeCreate.com/games-for-music-minis

RHYTHM
and SCALE
SOLUTIONS

RHYTHM CURRICULUM ORDER

My First Rhythm Cup Explorations[®], Rhythm Menagerie[®], and Rhythm Manipulations[®] are our core rhythm curriculums as they are carefully sequenced to give students comprehensive rhythm training.

Rhythm Cup Explorations[®] 1 and 2 are just supplements to this core curriculum.

You will get more significant and consistent rhythm improvement by regularly using the core curriculum and using Rhythm Cup Explorations[®] as a supplement.

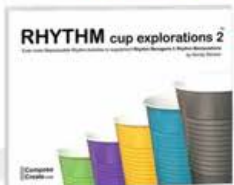

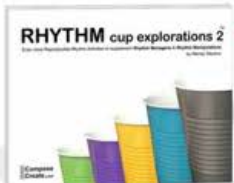

Core Curriculum

Supplements

Supplements

RHYTHM SOLUTIONS

Streaming tracks are available for each book. Students and teachers can purchase an inexpensive subscription to use at home or in lessons. Practicing with the tracks helps ensure accurate rhythm, especially for My First Rhythm Cup Explorations®, Rhythm Menagerie® and Rhythm Manipulations®.

ComposeCreate.com/streaming-tracks

MY FIRST RHYTHM CUP EXPLORATIONS®

ComposeCreate.com/my-first-rhythm-cup-explorations

My First Rhythm Cup Explorations® is the perfect introduction to rhythm for young students. This is where our core rhythm curriculum starts for students who need to develop a steady beat and reading basic rhythms. It teaches young students to keep a steady beat, tap rhythms, and even read notated rhythms. My First Rhythm Cup Explorations® is the perfect introduction to rhythm for any young student, no matter what instrument.

My First Rhythm Cup Explorations® is specifically designed to appeal and work for older preschool, kindergarten, and early level grade school students. This resource was tested in preschool, kindergarten, and first grade classes and private lessons with overwhelming enthusiasm and excitement from the children!

In addition to the fun of cup tapping, some of the features include:

- Only one rhythm on a page helps students focus
- Accompaniments feature a fun variety of styles
- Tracks are slower to accomodate young children
- Larger notation is used
- Patterns can be taught by rote
- Challenging rhythms included

Concepts Covered:

- Steady beat
- Quarter notes
- Repeat signs
- Quarter rests
- Half notes
- Triple and Quadruple meter

International Editions Available!

Our international editions use terms like crotchet, minim, quaver, etc. All of our rhythm books have international editions available.

RHYTHM MENAGERIE®

ComposeCreate.com/rhythm-menagerie

Rhythm is the most fundamental part of music making. So taking time to improve students' rhythm is one of the most important tasks and the most empowering gift we can give to students.

Rhythm Menagerie® is the first in-depth book in our core curriculum and features fun and intriguing activities to explore new rhythmic concepts. These rhythms are specifically designed to be musical (unlike many random rhythm drills) and fun to practice, especially with the accompaniment tracks. Each unit showcases a unique animal and often incorporates some of the fun antics of that animal in the student's activities.

Rhythm Menagerie® is designed to take away distractions like note reading so that students can focus on learning new rhythms. This 96 page PDF resource is a comprehensive approach to teaching and practicing rhythm and can be used alongside any method in private lessons, group lessons, and the classroom!

Concepts Covered:

- Quarter notes
- Half notes
- Whole notes
- Rests and ties
- Eighth notes
- Eighth rests
- Dotted quarter notes

International Editions Available!

Our international editions use terms like crotchet, minim, quaver, etc. All of our rhythm books have international editions available.

RHYTHM MANIPULATIONS®

ComposeCreate.com/rhythm-manipulations

Rhythm Manipulations® is the next rhythm book in our core curriculum and picks up right where Rhythm Menagerie® left off.

This book is specifically designed to appeal to mature students. The "Fun with Sounds" pages in Rhythm Menagerie® are replaced by "Rhythm Maneuvers" which can be performed alone, with teacher and student, or with multiple students.

The accompaniment tracks expose students to a wide variety of music styles and are appealing to all ages. Three tracks for each line are included. The rhythm is clearly depicted in the first two tracks so students can check to make sure they are performing accurately. The third track helps students test their rhythmic accuracy.

The unit on polyrhythms is particularly helpful in ways that merely playing music with polyrhythms is not.

Concepts Covered:

- Cut time
- Compound meter
- Triplets
- Sixteenths
- Sixteenths expanded
- Dotted eighths
- Polyrhythms (2:3 and 3:4)

International Editions Available!

Our international editions use terms like crotchet, minim, quaver, etc. All of our rhythm books have international editions available.

RHYTHM CUP EXPLORATIONS®

ComposeCreate.com/rhythm-cup-explorations-bundle

Rhythm Cup Explorations® is an outrageously popular supplement to our core rhythm curriculum. Students of all ages all around the world enjoy this!

Rhythm Cup Explorations® helps reinforce rhythm with fun cup tapping techniques. It can be enjoyed in private lessons, group lessons, classrooms, and large and small groups.

Because Rhythm Cup Explorations® is merely a supplement to our core curriculum, the books are not sequential. Books 1 and 2 contain something for each level of student.

Purchase the entire set of Rhythm Cup Explorations® and you'll find most rhythm concepts covered, though with less material than our core curriculum.

Concepts Covered:

MY FIRST RHYTHM CUP EXPLORATIONS®

- Steady beat
- Quarter notes
- Quarter rests
- Half notes

BOOK 1

- Quarter, half notes
- Eighth notes
- Triplets
- Sixteenths

BOOK 2

- Triple meter
- Dotted quarter notes
- Compound time
- Syncopated eighths
- Syncopated sixteenths

International Editions Available!

Our international editions use terms like crotchet, minim, quaver, etc. All of our rhythm books have international editions available.

RHYTHM CUP EXPLORATIONS® *sample*

Rhythms are musical and catchy.

Rhythm Cup Explorations - Sixteenths

Level 2

Rhythm Cup Explorations - Triplets

Level 4

Rhythm Cup Explorations - Eighths

Level 2

Rhythm Cup Explorations - Quarter, Half

Level 1

Play the following rhythms with a plastic cup in your hand. Tap the table with the cup on the c's and lift and tap the top of the cup with the other hand on the x's. The second and fourth rhythm have a passing feature. In the last measure of these rhythms, place the cup in front of the next student on the third beat (do not slide it) and pick up the cup that is passed to you on the fourth beat, then repeat the rhythm.

MP3 Tracks 1, 2, 3 - Pick 4 times if playing with the teacher. Example: track 1 & 2 with repeats, track 3 & 4 with repeats, or all three without repeats.

"Brilliant!" "My students love this!"
"I have students begging for this!"

— Piano and Classroom teachers

Rhythm Cup Explorations 2 - Sixteenth Syncopation

Level 5

Rhythm Cup Explorations 2 - Eighths Syncopation

Level 4

"Even my adult students love
Rhythm Cup Explorations®!" — Sally

Rhythm Cup Explorations 2 - Dotted Quarters

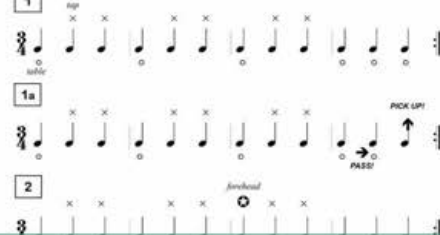

Level 3

Rhythm Cup Explorations 2 - Basic Triple Meter

Level 1

Play the following rhythms with a plastic cup in your right hand. Practice the line without the passing feature first in order to master the rhythm. When attempting the line with the passing feature, remember to place the cup in front of your neighbor (rather than sliding) for best results.

MP3 Tracks 1-4 - Pick 4 times if playing with the teacher. Example: All lines without repeats, track 1 & 2 with repeats, or track 3 & 4 with repeats.

Units on syncopation are a great way to
practice current pop music rhythms.

Students love using the tracks subscription at home to achieve faster tempos!

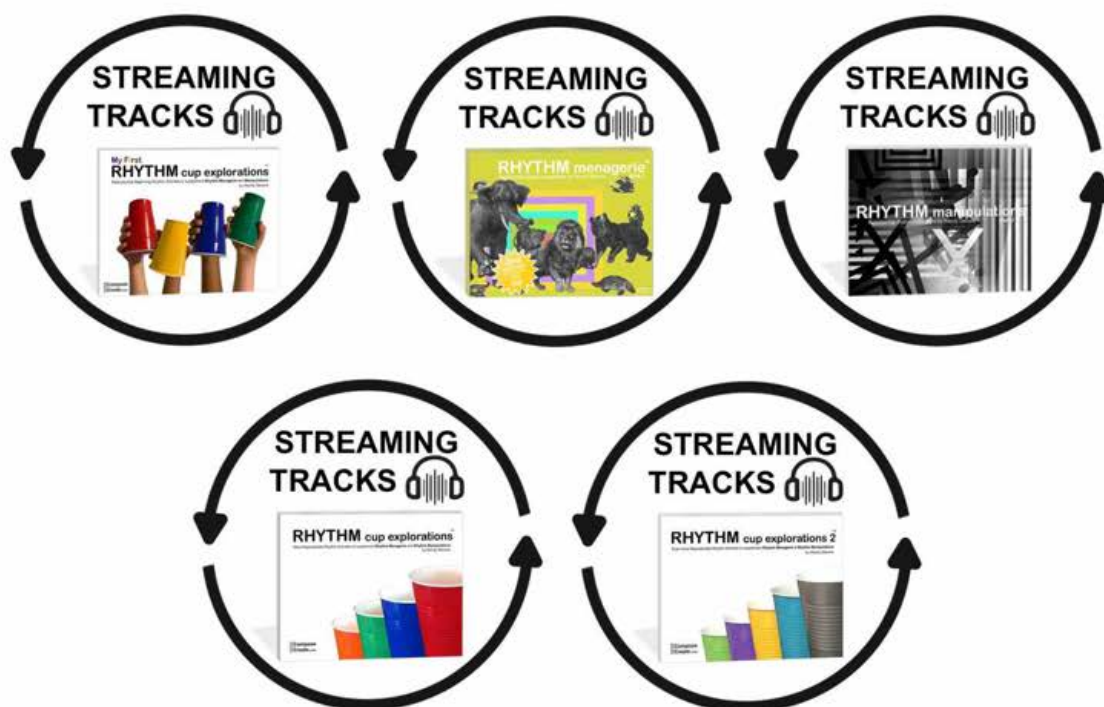

RHYTHM STREAMING TRACKS

ComposeCreate.com/streaming-tracks

Rhythm tracks are integral in helping students practice accurately at home.

Each set of tracks in our core curriculum (Rhythm Menagerie®, Rhythm Manipulations®, and My First Rhythm Cup Explorations®) contain 3 tempos for every line of music – slow, medium, and fast.

In the first two tracks, students can hear the rhythm played which helps make sure they are practicing accurately at home. The third track challenges them to stay with the track and play accurately even when the rhythm is no longer depicted.

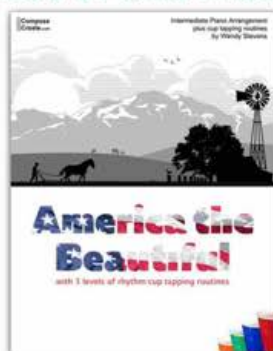

Note: Tracks are not shareable with students. Students must purchase their own set of downloadable or streaming tracks to use at home.

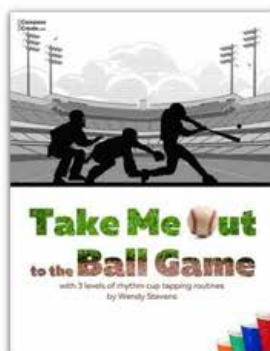

RHYTHM CUP EXPLORATIONS[®] MUSIC

ComposeCreate.com/rhythm-cup-products

When you pair Rhythm Cup Explorations[®] with a great piece of music that everyone knows, you get an outrageously fun ensemble piece with beautiful cup-tapping choreography! Audiences are wowed by performances of this music!

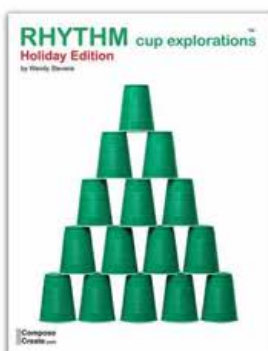

Includes 1 piano arrangement, 3 levels of cup-tapping choreography, orchestral tracks and demo videos.

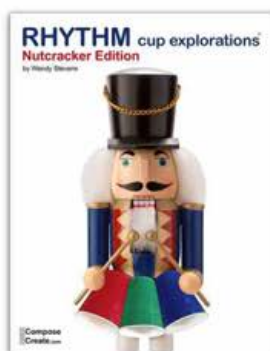

Includes 1 piano arrangement, 3 levels of cup-tapping choreography, orchestral tracks and demo videos.

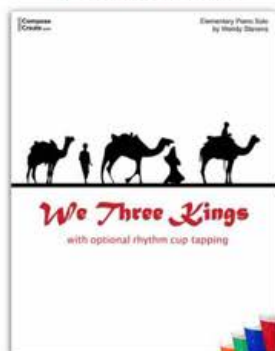

Includes 1 piano arrangement, 3 levels of cup-tapping choreography, orchestral tracks and demo videos. NOTE: All 3 levels of cup tapping can be performed simultaneously in this arrangement.

Includes 3 piano arrangements, 3 levels of cup-tapping choreography, and orchestral tracks.

Includes 3 piano arrangements, 4 levels of cup-tapping choreography, orchestral tracks and demo videos.

Includes 1 piano arrangement and a simple cup-tapping rhythm for the audience to cup tap.

Includes 1 piano arrangement and a simple cup-tapping rhythm for the audience to cup tap.

SMART SCALES

ComposeCreate.com/smart-scales

We all want students to learn scales in a musical way that helps them play more accurately in key signatures. But this process is fraught with problems.

Often the transition from five-finger patterns to one octave scales is too rapid and difficult. Plus a lack of musical context and harmony makes practicing scales boring. In addition, scales are not usually practiced with engaging rhythms, so the whole process is musically unsatisfying.

But Smart Scales solves these issues!

The variety of different melodies in the same key will enable your students to stay with the key long enough to actually achieve fluency. Students will develop familiarity with the most common musical shapes in each new key. In addition, the teacher accompaniments in Smart Scales provide the rhythmic and harmonic context which traditional scale practice lacks. This subtly provides rhythmic support, encouragement and feedback.

Section Three

***MUSIC
CATEGORIES
and SPECIAL SERIES***

ROTE AND READING®

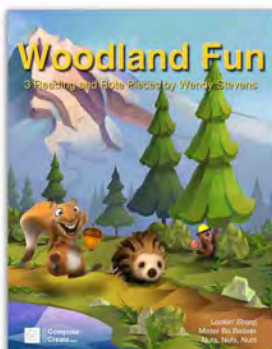

ComposeCreate.com/rote-and-reading

Rote and Reading® music enables students to play more difficult sounding music than they can read. But it also assists educationally as it helps improve their ear and reading ability.

Always place the score in front of the student when teaching a Rote and Reading® piece. Referring to the music while teaching the piece helps students learn to notice notation cues and read music better. Ask them questions like:

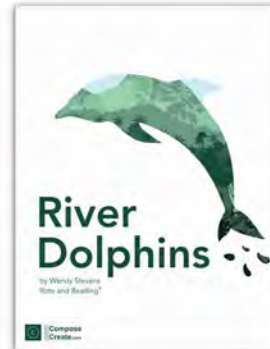

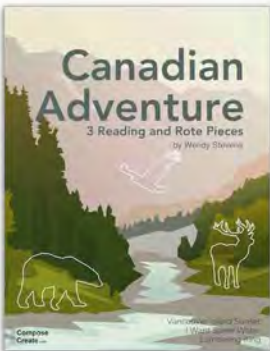

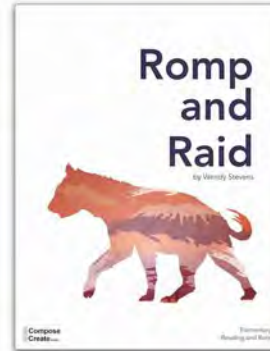

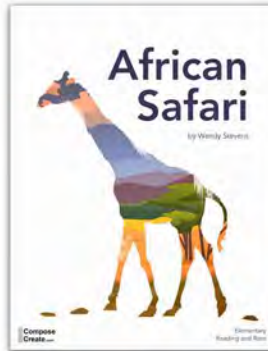

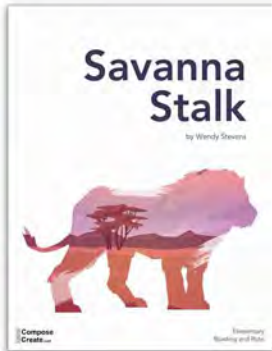

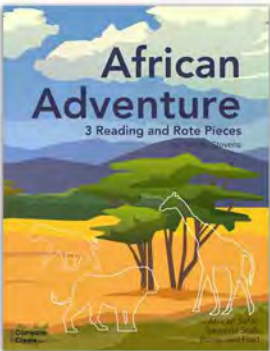

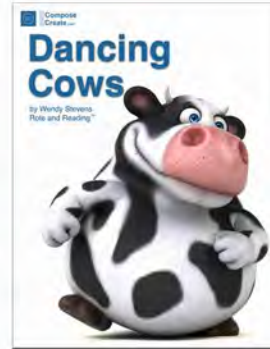

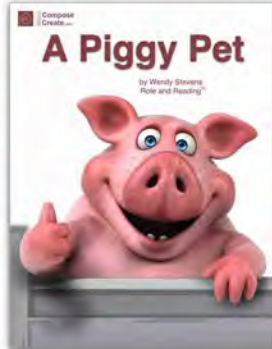

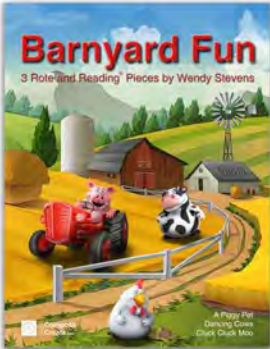

1. Does it move up, down or stay the same?
2. How many times do you repeat that?
3. Is this higher or lower?

TALENT SHOW MUSIC

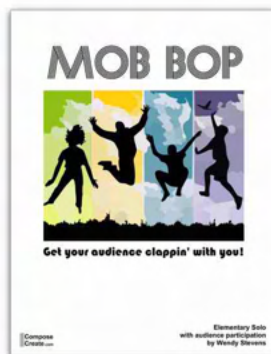

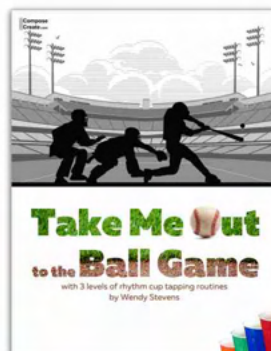

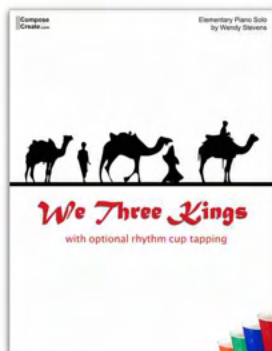

AUDIENCE PARTICIPATION MUSIC

When you involve the audience in music making, everyone has a great time and it leaves an amazing impression on parents and audience members. Your audience will think you are the most creative teacher in the city!

These solos invite the audience to participate by clapping or cup tapping a specific rhythm. Included in your purchase are mp3s with the audience part so that your student (or you) can practice and be prepared with these sounds.

Audience participates by clapping a rhythm.

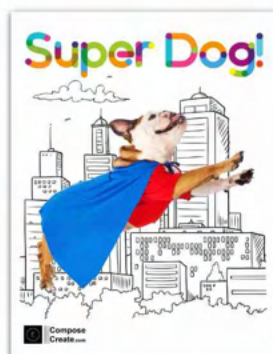

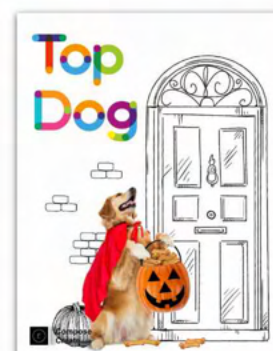

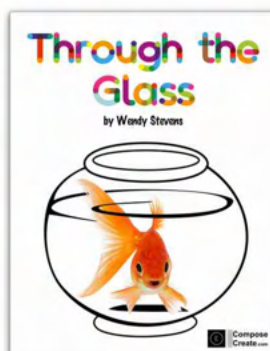

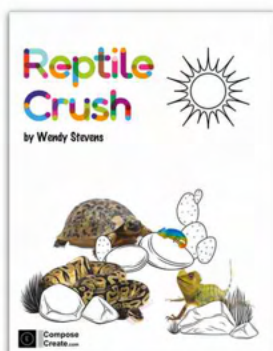

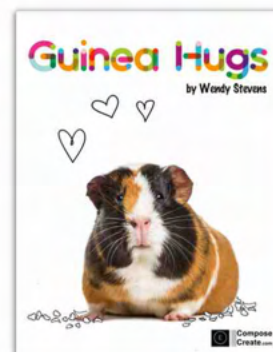

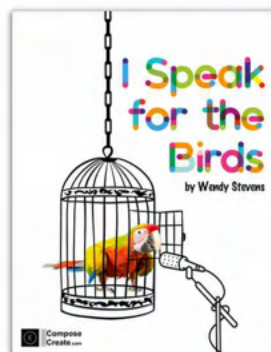

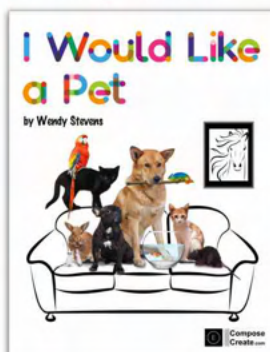

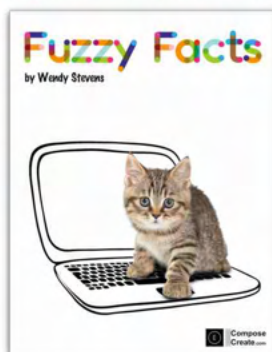

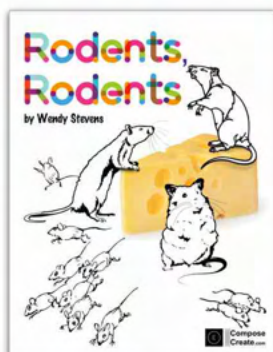

Audience participates by cup tapping a rhythm or singing.

PET SHOP SERIES

MYTHICAL CREATURES SERIES

Each Mythical Creatures piece comes with the beautiful cover, music, and coloring sheet.

Mythical Creatures Music Achievement Cards

This is a new way for students to showcase all they have learned and accomplished! Affirming students and reminding them of all they have accomplished with "collector cards" is significantly motivating and these cards help you do this in a fun way!

ComposeCreate.com/music-achievement-cards

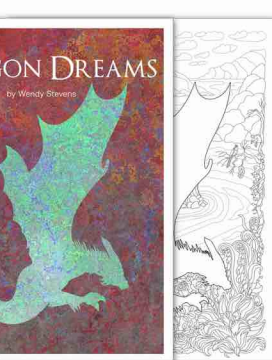

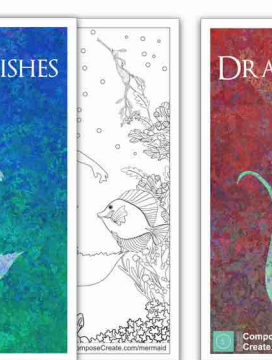

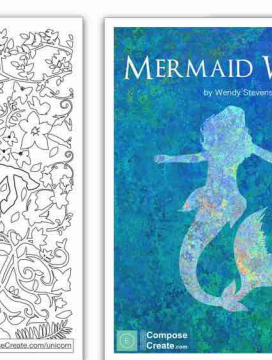

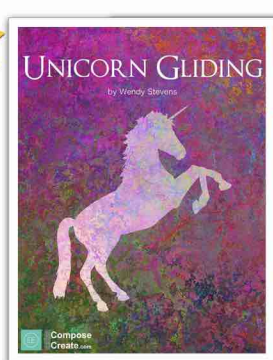

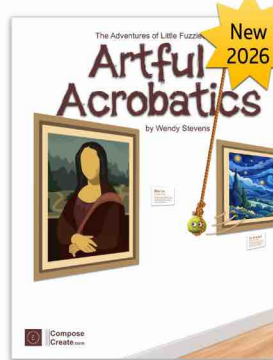

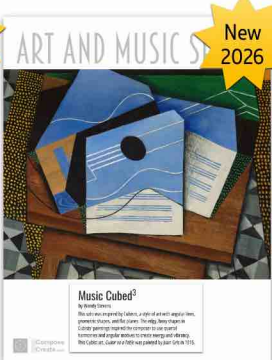

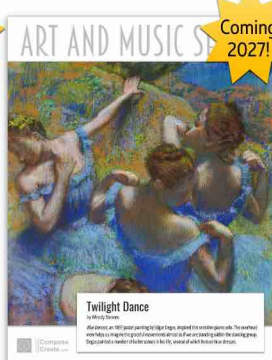

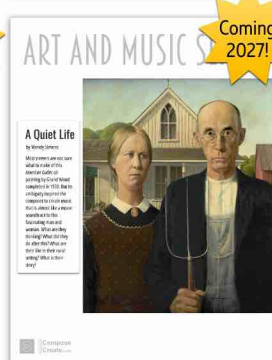

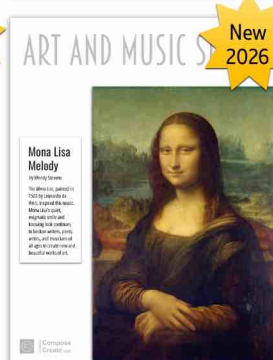

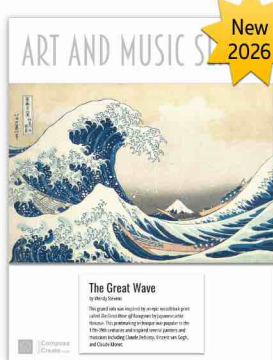

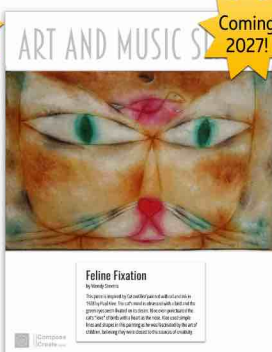

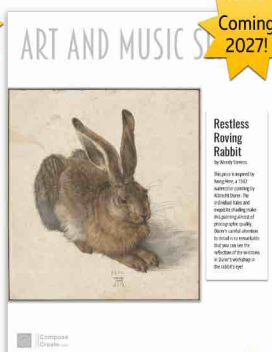

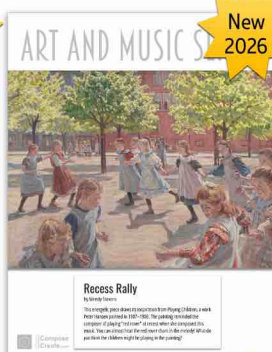

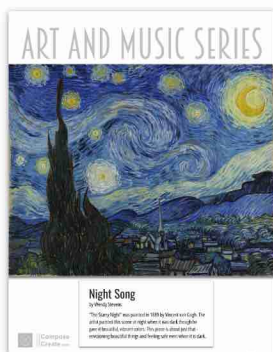

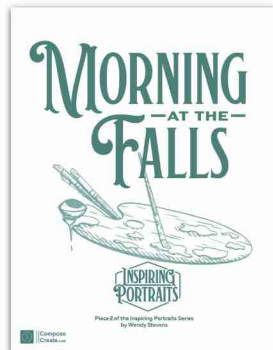

ART AND MUSIC

ComposeCreate.com/art-and-music

The Art and Music Series features piano solos inspired by famous works of art. This series will be expanding to include all kinds of art from a diverse group of artists and will be an excellent exposure to great works of art, styles of art, and artists from around the world.

The Mythical Creatures series includes 8 solos with coloring pages!
Composecreate.com/mythical-creatures

"Morning at the Falls" is from the Inspiring Portraits series which honors people in history who may have been forgotten or overlooked, but have been extremely influential in shaping the world. This solo showcases how Thomas Moran used his painting tools to help preserve the area of Yellowstone and the Grand Tetons for us all to enjoy!

VIDEO GAME MUSIC

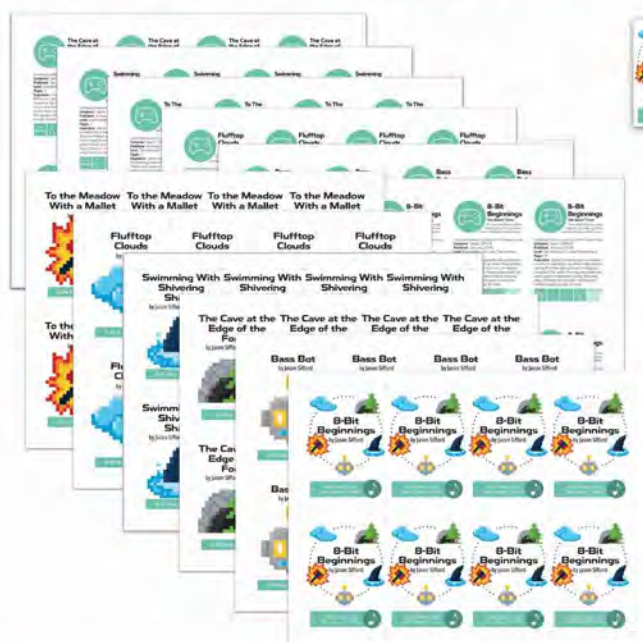

More video
game music
coming soon!

Side Quests™ is a new series of music inspired by video games. Each set contains a number of short pieces with unique gaming themes and sounds. This series will be expanding!

Music Achievement Cards

Music Achievement Cards are also available for the Side Quests™ series!

Music Achievement Cards motivate students to learn more music and reward them for a job well done! These are numbered cards (like baseball cards) detailing the story and inspiration behind each piece.

Use them as:

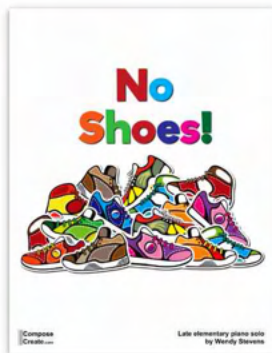

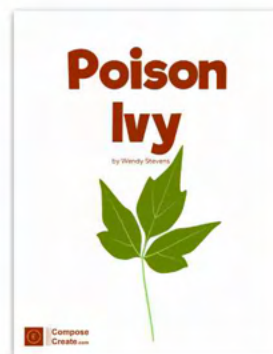

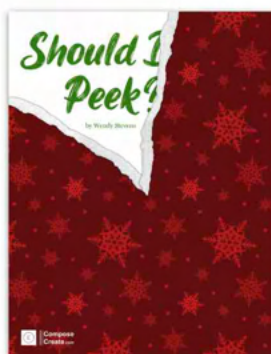

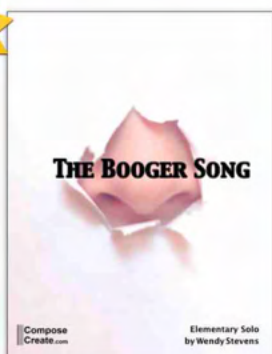

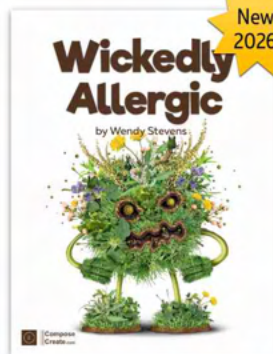

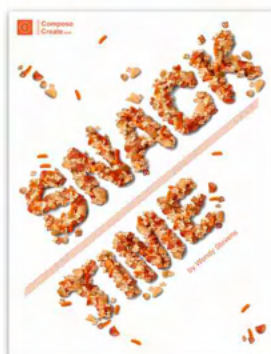

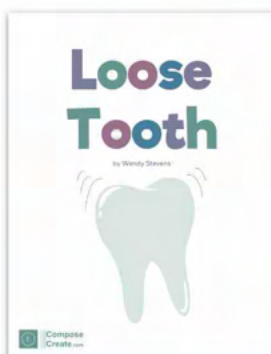

- * Incentives for learning
- * Rewards for finishing well
- * Building excitement
- * Choosing recital pieces
- * Studio Décor

ComposeCreate.com/music-achievement-cards

CHILDHOOD EXPERIENCES

Children find it comforting and reassuring that they're not the only one who feels this way about being a kid!

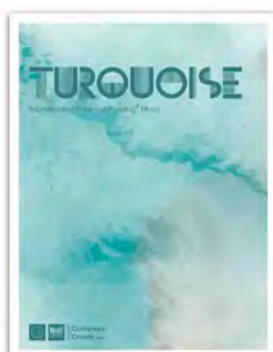

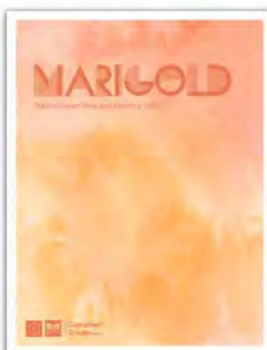

COLOR MUSIC

This is a subset of the Rote and Reading® series that enables students to play more difficult sounding music than they might be able to read. When taught with the score, these can also improve students' reading abilities as well.

ComposeCreate.com/color-music

Always place the score in front of the student when teaching a Rote and Reading® piece. Referring to the music while teaching the piece helps students learn to notice notation cues and read music better.

Ask them questions like:

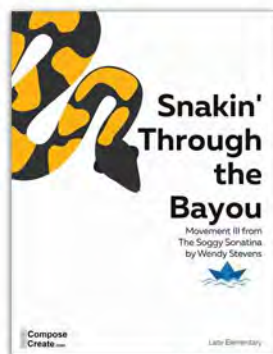

1. Does it move up, down or stay the same?
2. How many times do you repeat that motive?
3. Is this higher or lower?
4. What is the same? What is different?

SURPRISES & EXTRA-MUSICAL SOUNDS

*Kids love surprises.
But they love to be the one that surprises others too!*

*For more surprises, check out

JAZZ MUSIC

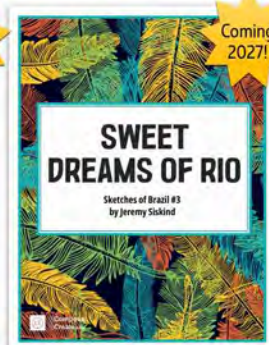

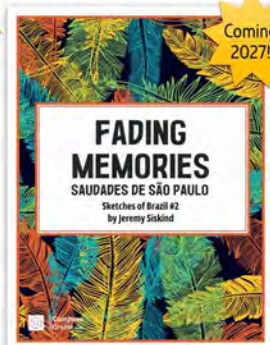

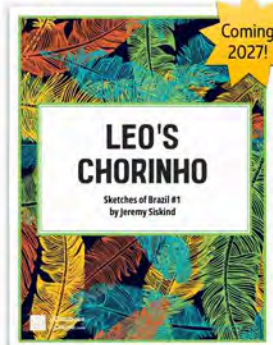

These jazz solos are easily accessible even to classically trained students and musicians.

"Jazz Shorts"

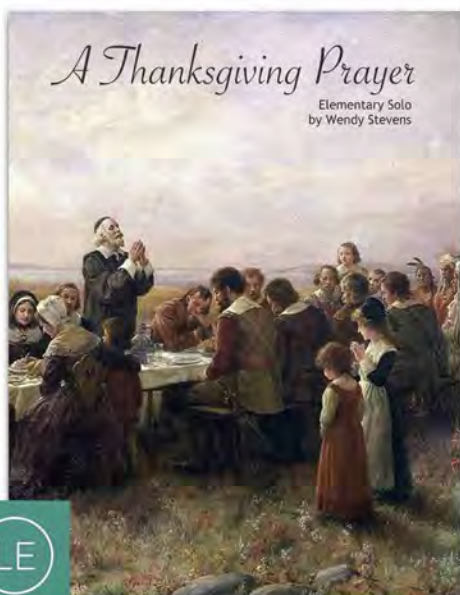

"Swing and Sizzle" Series

"Sketches of Brazil" Series

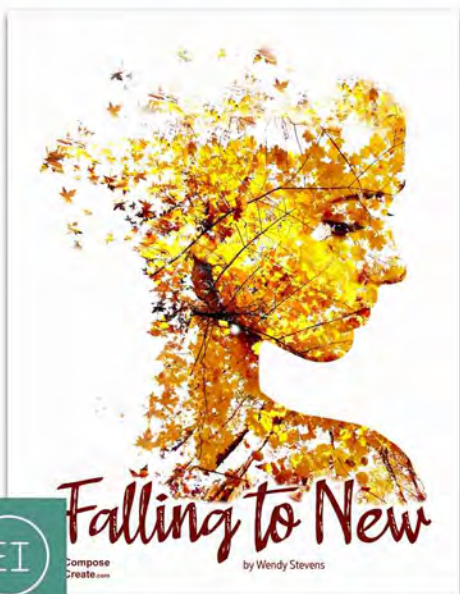

POP MUSIC PVG (PIANO, VOCAL, GUITAR)

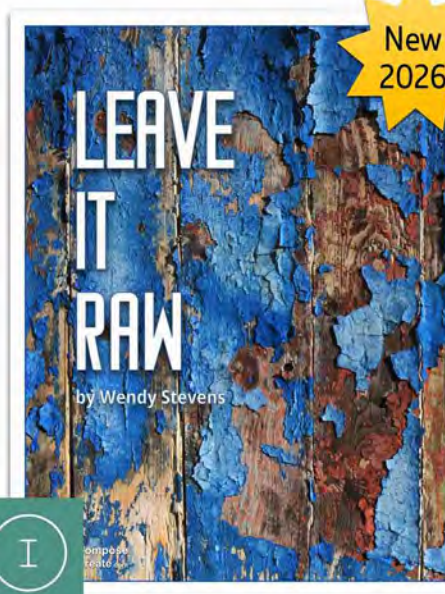

LE

This Thanksgiving song features a familiar anonymous poem showcased with a beautiful melody. Guitar tabs and chord symbols are also included (both elementary and advanced tablature.) This piece can easily be sung around the piano at a family celebration or recital event.

EI

Falling to New is about those times when we just want to begin again - to start fresh. This piece is composed in a beautiful pop style with guitar chords and tablature.

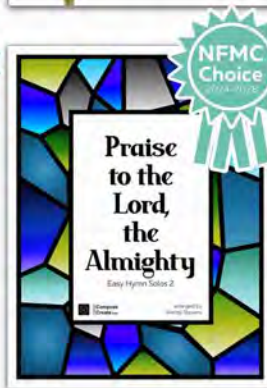

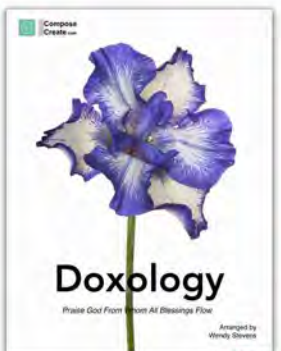

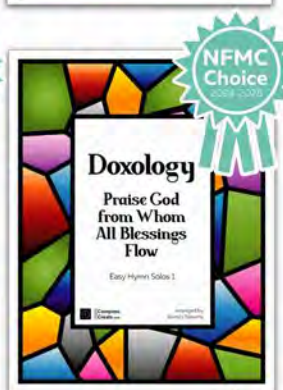

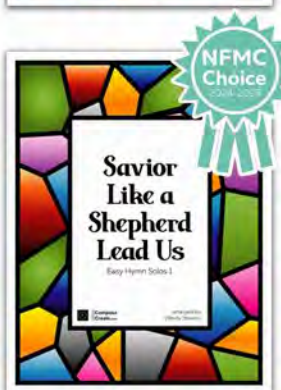

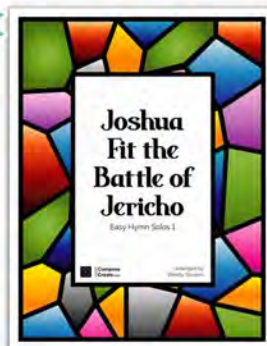

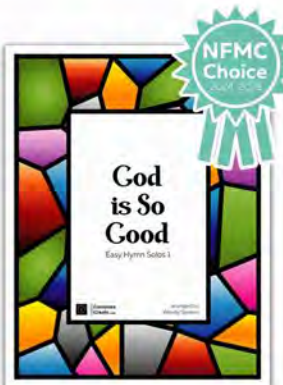

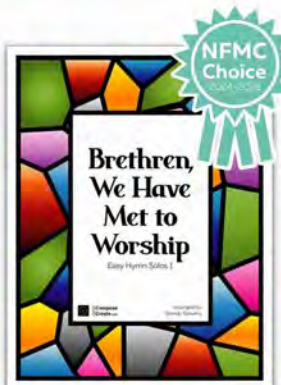

I

Leave It Raw lays bare the heartache of friends not wanting to sit with you in the darkest times of your life. It implores those who just want to "paint it pretty" to instead feel the pain with you.

SACRED MUSIC

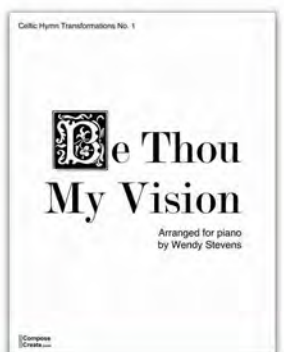

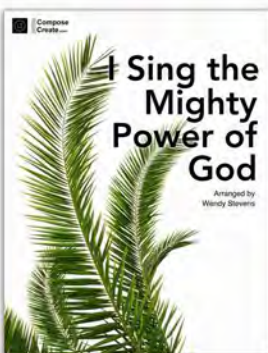

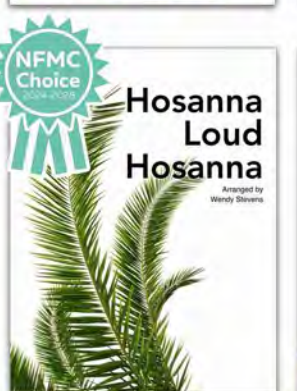

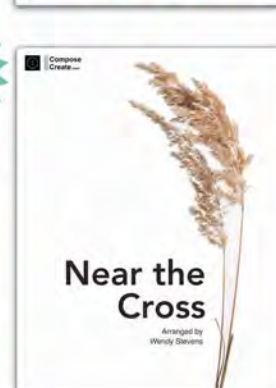

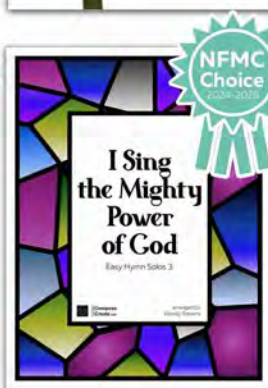

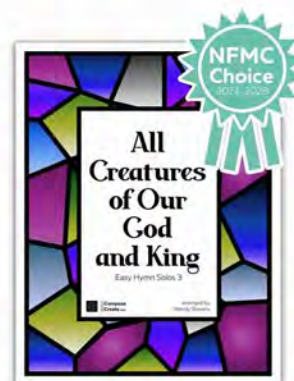

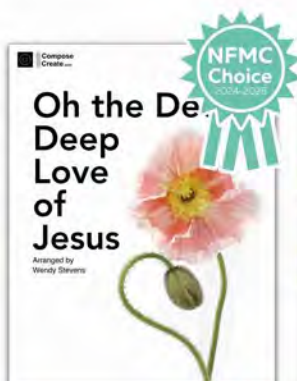

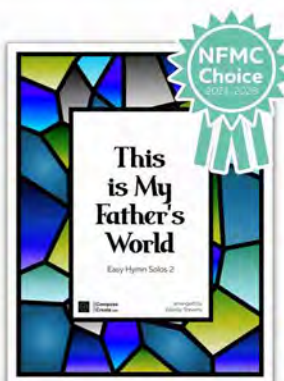

ComposeCreate.com/sacred-music

SACRED MUSIC *continued*

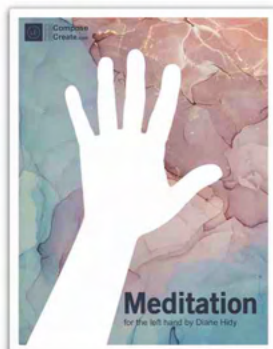

ComposeCreate.com/sacred-music

ONE HANDED MUSIC

One-handed piano music is necessary when students injure an arm or finger. But these pieces are so pedagogically solid and beautiful, that they are perfect even for students without injury!

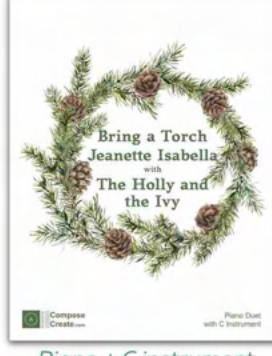

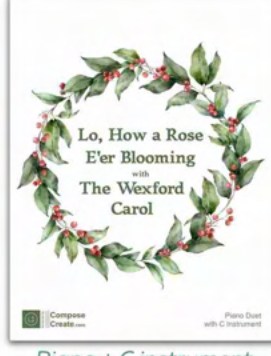

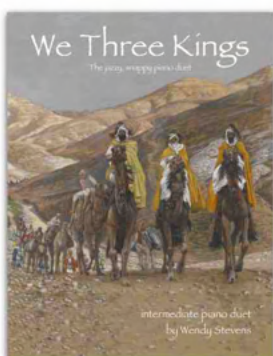

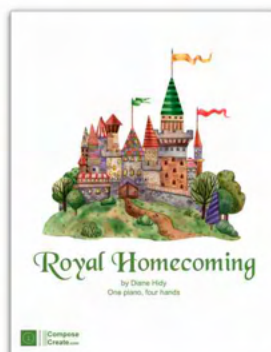

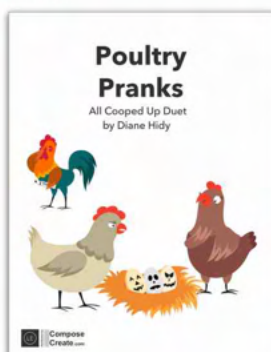

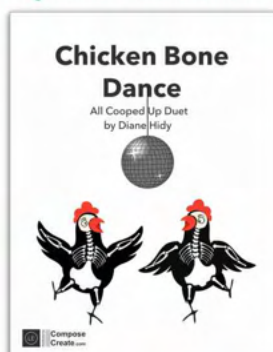

DUET MUSIC

Many of our early elementary pieces have teacher duets. These are our "equal part" duets.

BEGINNING MUSIC FOR KIDS

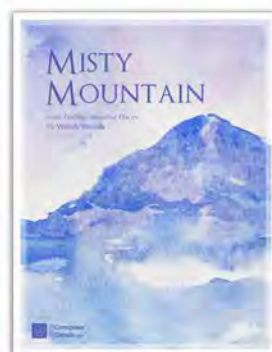

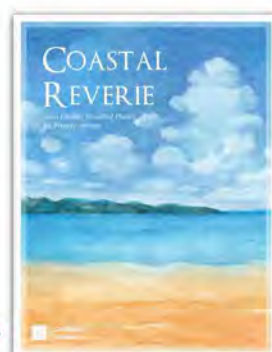

EE - Early Elementary
Mostly Black Key

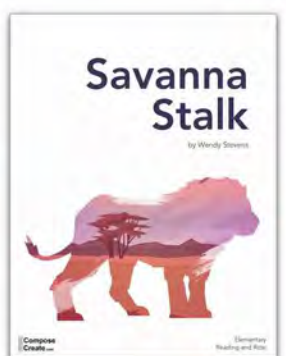

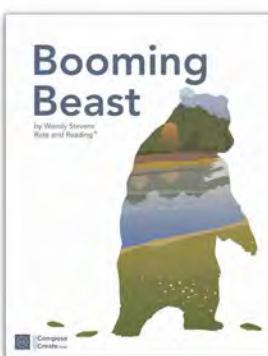

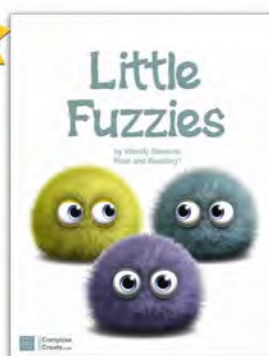

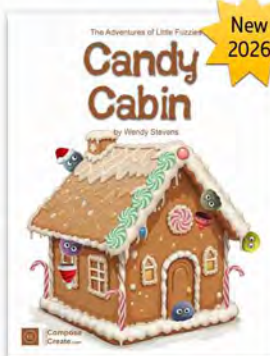

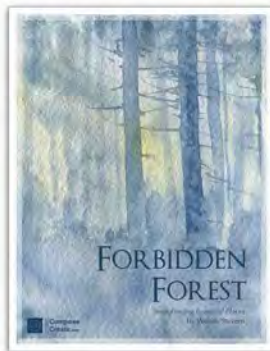

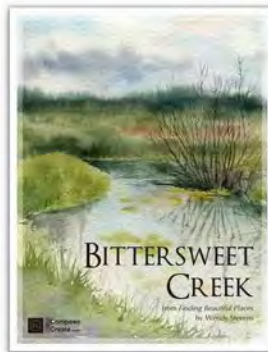

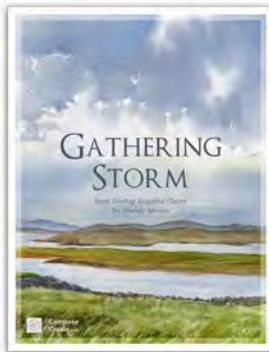

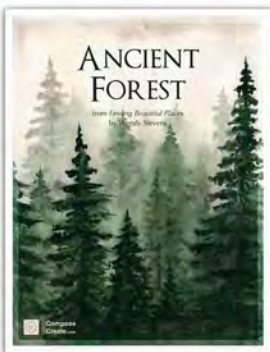

This is the same piece but with different covers, title, and lyrics for those who don't care for Halloween music.

Wendy originally composed the Beautiful Places series for adults and teens. But we found that kids love these mature-sounding pieces too!

BEGINNING MUSIC FOR KIDS *continued*

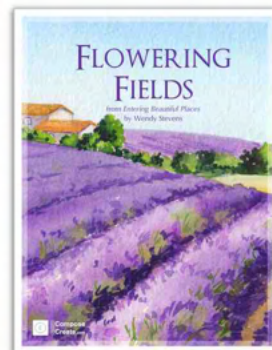

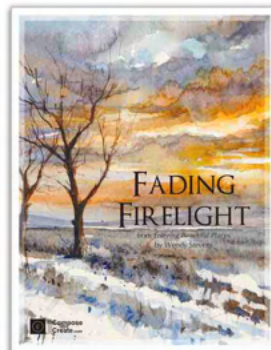

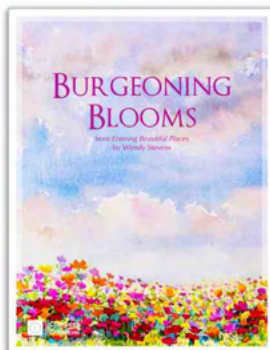

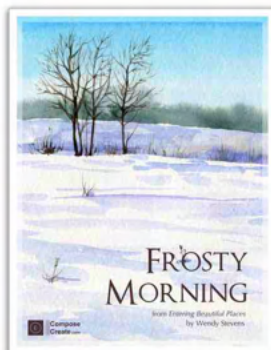

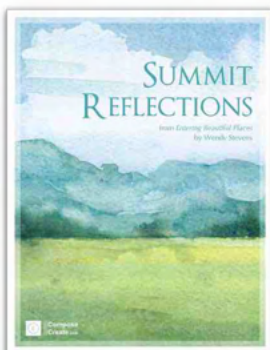

Introduce Staff Reading Gently:

Reading music is challenging. But these seven pieces introduce notes on the staff in an easy way, showing the names of the notes on any new motives and then removing those names as the motives are repeated. This helps the student feel more confident in note reading. Plus, the music is mature sounding and sounds like "real music," as students have exclaimed!

BEGINNING MUSIC FOR KIDS *continued*

(These also introduce staff reading gently.)

BEGINNING MUSIC FOR TEENS, ADULTS

EE – Early Elementary

These ten pieces are played on the black keys. An image of where hands are placed is pictured on each piece except Savanna Stalk. Students read by finger number and note direction.

FADING FIRELIGHT
from *Enchanting Beautiful Places*
by Wendy Stevens

FLOWERING FIELDS
from *Enchanting Beautiful Places*
by Wendy Stevens

These next solos help students read music on the staff, but give note names for new motives. This helps students practice with correct notes during practice, but forces them to read without note names through the rest of the piece.

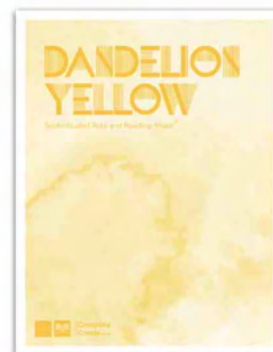

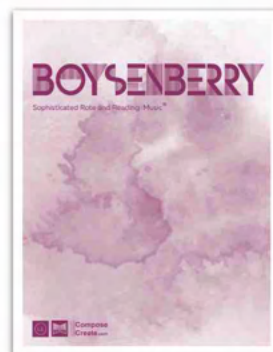

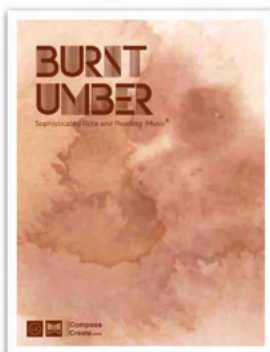

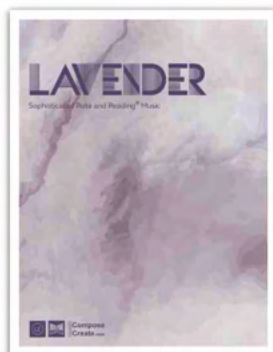

BEGINNING MUSIC FOR TEENS, ADULTS *continued*

These three Rote and Reading® pieces can be taught by rote or reading, but we recommend a combination of both.

Adults will especially enjoy the mature sound and will become more comfortable with moving around the keyboard.

As adults get more comfortable moving around the keyboard, they can advance to these slightly more challenging Rote and Reading® pieces.

More Color Music at higher levels can be found here: ComposeCreate.com/color-music

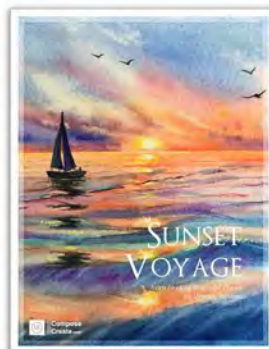

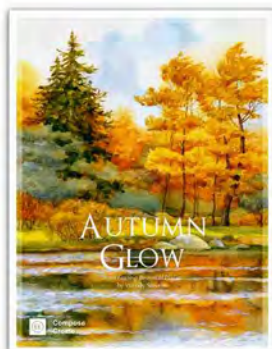

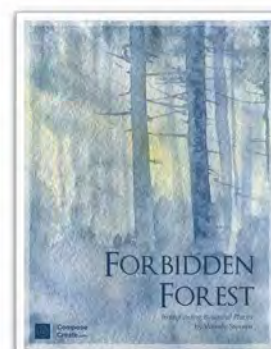

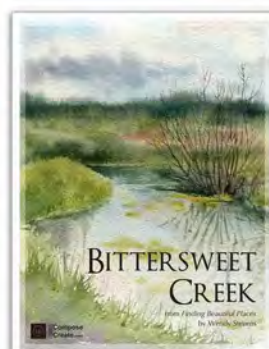

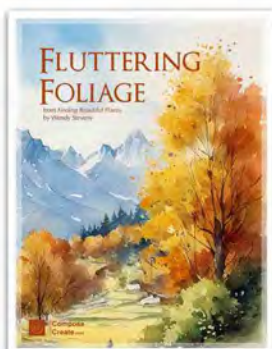

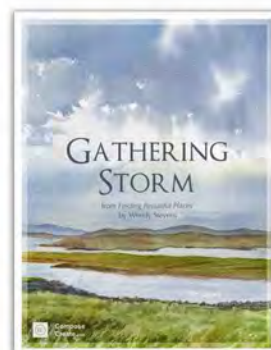

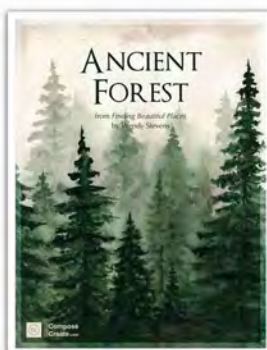

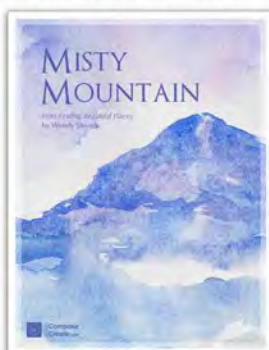

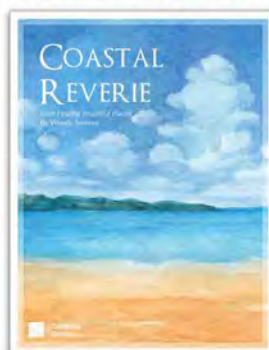

MUSIC TEENS LOVE®

ComposeCreate.com/music-teens-love

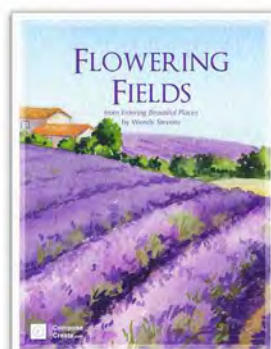

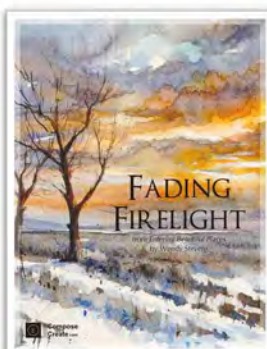

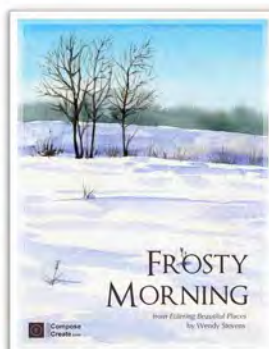

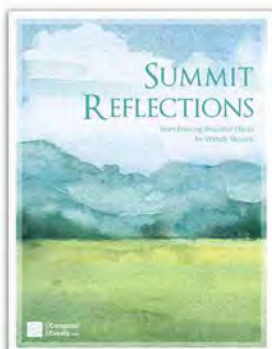

Sometimes teens want to impress, sometimes reflect. But they never, ever want to sound like a child! So this music is composed for teens and anyone who wants to sound mature.

All is Calm Collection

ALL IS CALM HOLIDAY MUSIC

ComposeCreate.com/all-is-calm-collection

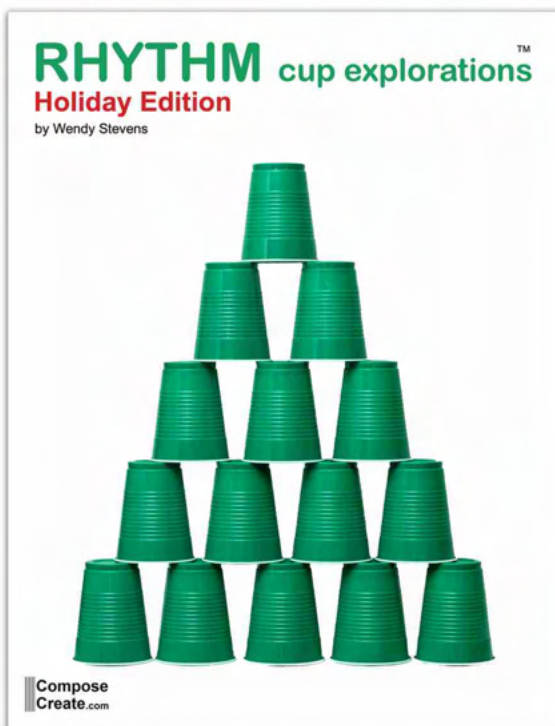

The All is Calm, All is Bright collection is one of Wendy's all-time favorite sets of compositions. She says:

"I adore Christmas music. It's like a warm blanket to me each winter season. Ever since I was a teen, I wanted to arrange holiday and Christmas music unique enough that it would pique the listener's interest even if they had heard the tune thousands of times. This prompted this set of arrangements that I hope bring new hope, new light, and new insight into your Christmas season."

HOLIDAY and CHRISTMAS MUSIC - ENSEMBLE

ComposeCreate.com/holiday-music

These Rhythm Cup Explorations® collections come with 3 arrangements which contain an intermediate piano arrangement and 3-4 levels of cup-tapping choreography for students to perform. Also included are mp3 orchestrations (both with and without the piano in case you don't have a pianist at that level) for dynamic performances.

Audiences will be amazed!

MUSIC ACHIEVEMENT CARDS

ComposeCreate.com/music-achievement-cards

Music Achievement Cards are a great way for students to showcase all they have learned and accomplished at the piano! Affirming students and reminding them of all they have accomplished with "collector cards" is motivating and students will beg for more. Use them as:

- * Incentives - Students want to learn more music to collect more cards.
- * Rewards - Reward the card for the piece. Students display in baseball card sleeves.
- * Building excitement - Display cards on your wall to pique students' interest.
- * Choosing recital pieces - Let them choose from your own card collection.
- * Brag Books - Students can store cards in baseball card sleeves in their notebook.
- * Studio Charts and Décor - Use these on your studio wall, piano or small shelves.
- * Studio Showcase - Compile your own Brag Book to showcase music you teach.

MUSIC NOTEBOOK COVERS

for organizing printed music

ComposeCreate.com/product/notebook-covers-and-inserts

More
Coming
soon!

Digital music is often "out of sight, out of mind," so we recommend keeping a physical notebook with one print of each of your digital pieces. That way you can organize music to easily find and give students at the lesson.

Leave a sticky note with the name of the piece where you take it out and you can refill weekly or monthly!

Our notebook covers come with front inserts (and back where applicable) as well as spine inserts so that you can identify them at-a-glance on the shelf.

Read this article for how to organize printed music!

Penguin Note Match

"Play is the natural language of a child. Serious talking is not. I think play goes hand in hand with the idea of kinesthetic learning which is very important for kids. But it also adds something to the concept of just doing things physically. It adds an *enjoyable* element called play."

~ Wendy Stevens from the "Have You Forgotten What It's Like to be a Child?" workshop
